CALIFORNIA SENATE IGNORES BRYAN AND PASSES LAND BILL

Democrats Join Progressives and Adopt Anti-Alien Land Bill With Only Two Dissenting Votes

COMPANION BILL MAY PASS ASSEMBLY SOON

Measure Limits Aliens to Rights Conferred Upon Them by Existing Treaties Between U. S. and Other Nations

(By Associated Press.)

SACRAMENTO, Cal., May 3.—Governor Johnson is expected to have in his hands tonight an alien land law barring Japanese and other aliens ineligible to citizenship from the soil of California. He has agreed to delay signing the bill until opportunity shall be given for hearing with a view of protests President Wilson may desire to make.

In the governor's own words, this delay will cover "a reasonable time," probably not more than ten days, certainly not more than thirty.

Although the act is designed to exclude all aliens ineligible to citizenship, it is drawn in conformity with treaty obligations and guarantees to every alien his full treaty rights, omitting the phrase "ineligible to citizenship" objected to by Japan.

With this program on the cards, the assembly picked up today the work of the senate and began final consideration of the Bloodgood bill, which is identical with the Webb redraft of the anti-alien bills passed early this morning by the senate.

It was planned by administration floor leaders in the assembly to adopt the same procedure followed yesterday by the senate and to begin at once the long debate that must necessarily precede conclusive action. The effect of the senate's almost unanimous decision was expected to hasten free vote.

Since the Bloodgood bill is identical with the senate bill already passed, it will be sent on passage at once to the committee on enrollment, there to be compared with its companion measure. When the identity of the two acts has been verified, the committee will report back to the house and the bill will be sent to the governor for his signature.

The administration anti-alien land holding bill drawn by Attorney General Webb passed the state senate at 2:45 o'clock this morning by a vote of 36 to 2, after nearly ten hours' of debate. The only negative votes were cast by Senators Cartwright, Democrat, and Wright, Republican.

The principal provisions of the bill are as follows:

1. Aliens eligible to citizenship may acquire and hold land to the same extent as citizens.

2. All other aliens are limited to the specific rights conferred upon them by the existing treaties between the United States and the nations of which such aliens are citizens or subjects.

3. In the case of the Japanese the bill prohibits ownership of farming or agricultural lands, while permitting them to own residences and factories, manufactories and shops.

4. Leases of agricultural lands by such aliens are permitted for a period not exceeding three years. There is a question as to whether renewals would be lawful.

5. Aliens ineligible to citizenship cannot inherit land. Upon the death of an alien land holder his property shall be sold by the probate court and the proceeds distributed to the heirs.

6. The state specifically reserves its sovereign right to enact any and all laws in future with respect to the acquisition of real property by aliens.

7. Present holdings of ineligible aliens are not affected, except that they cannot be bequeathed or sold to other aliens not eligible to citizenship.

In the closing hours of the debate enthusiasm was lost sight of. Democrats and Progressives voted together in response to what they took to be the demand of the people of California. Their only difference in the end was over the question of whether the bill was drastic enough.

The futility of Secretary Bryan's mission was shown in the votes of his own party. Nine of the ten Democratic senators who cast the adverse votes had brought from President Wilson while not a single Progressive yielded to his expressed wishes.

American Japanese Thank Wilson for His Efforts

(By Associated Press.)

SAN FRANCISCO, May 3.—George Shima, president of the Japanese Association of America, sent the following telegram last night to President Wilson:

"We beg to express to you and through you to the American people our deep feeling of gratitude for your interest in and concern for the Japanese residents in this country and for sending your most esteemed secretary of state to this state.

"We have all confidence and trust that justice and humanity, which we conceive to be the fundamental principle of the American nation, will be ably upheld by your administration, and unbroken friendship between our native land and adopted country will never be questioned."

To the fourth national peace congress, in session at St. Louis, President Shima sent the following telegram:

"The Japanese Association of America sends its hearty greetings and offers its sincere co-operation to your congress, believing in the triumph of peace and justice over international misunderstandings."

Bill as It Passes Senate Not Acceptable to Japan

(By Associated Press.)

WASHINGTON, May 3.—It was learned here today that the Webb anti-alien land bill in its present form is not satisfactory to the Japanese government. Although there is possibility of amendment in the lower branch of the California legislature or in conference, the conviction obtains that nothing remains to be done from the Japanese point of view at present but to

HOUSE FIGHTS OVER THE WOOL SCHEDULE

Underwood Praises Wilson in Speech Advocating Free Raw Wool

(By Associated Press.)

WASHINGTON, May 3.—Schedule K, the much discussed, always disputed wool tariff, upon which the Democrats maintain the Republicans stumbled in their fall from power last fall, and over which their own party is divided, brought the tariff fight in the house today to a climax.

It was apparent early in the day that free raw wool as projected in the administration bill, was in for a three cornered fight, the Republicans demanding a duty of about eighteen per cent supported by some of the Progressives and the wool insurgents of the majority demanding a 15 per cent duty which they claimed was the original judgment of the ways and means committee until President Wilson took a hand.

Though approved by the Democratic caucus after a two day fight and almost certain to come through the house struggle unscathed, the wool schedule brought the heaviest oratorical artillery of the opposition, and many predicted that free raw wool would not stand the fire in the senate but eventually would come back to the house with a duty and receive the solid Democratic support.

UNDERWOOD PRAISES WILSON.

Majority Leader Underwood championed the schedule with all his force on behalf of the ways and means committee and the president. As he did in the caucus, Mr. Underwood declared the president was entitled to as much consideration in the making of tariff as any citizen, and he lauded him for his general approval of the measure as it came originally from the committee. The open secret that the ways and means committee had first favored a 15 per cent tax on raw wool was freely discussed in the debate.

Many Democrats freed from the binding rule of the caucus were outspoken in their opposition to the schedule, the protesting majority members coming from Ohio, Texas, Indiana and other western states. Those who voted against it in the caucus but who agreed to stand by the majority were silent in today's discussion which promised to continue tonight.

Representative Payne, of Kansas, introduced an amendment for the wool schedule. Representatives Murdock and Martin also had amendments. The schedule was read under an agreement for three and one-half hours' general debate, Mr. Underwood urged that purely political speeches be avoided.

Representative Payne explained his substitute and defended the Republican tariff policy.

Representative Garner, of Texas, explained that the Democrats during the wool first succeeded in committee, but free wool followed suggestions of the head of the party, the president.

Representative Mann, of Illinois, defended the schedule as prepared by the committee.

Representative Harris, of New York, defended the schedule as prepared by the committee.

"After this bill is enacted into law," he said, "when a man buys an $8 or $10 suit of clothes he will be more than one week in it and the first time he goes out in the rain it won't stiffen up like a stove pipe. Free raw wool means cheaper clothing to the American consumer."

SOCIALISTS RAISE RED FLAG AND DEFY POPULACE

Declare They Are Within the Law and Demand Police Protection

(By Associated Press.)

EAST LIVERPOOL, Ohio, May 3.—Pedestrians in the business section early today were surprised to see a blood-red flag flying from the top of a prominently located building and protests made to the policeman on the corner were met with the reply that the city authorities had no power to haul it down.

Attention over the flag dates back several months, when the local organization of Socialists flung to the breezes a small red flag, to designate their headquarters. Members of the Grand Army of the Republic, and other patriotic societies protested, but were informed by the Socialist leaders that as the red flag was the flag of no other country, there was no law by which the police could order its removal. As the protests multiplied and public opinion became more pronounced the Socialists answered the requests of the authorities to remove the flag by hoisting another many times as large, and this it was that aroused public ire this morning.

Threats that the flag will be torn down and burned are met by the retort of the Socialists that they are within the law and demand protection.

35,000 SUFFRAGETTES PARADE IN NEW YORK BEHIND FORTY BANDS

Greatest Parade for the Cause of "Votes for Women" the World Has Ever Seen Was Witnessed Saturday

LINE SWUNG INTO FIFTH AVENUE AT 2 O'CLOCK

Following Pageant Great Mass Meetings Will Be Held on the Plaza at Fifty-Ninth Street and Fifth Ave.

(By Associated Press.)

NEW YORK, May 3.—Thirty-five thousand women—and men—marched eight abreast to the blare of forty bands up Fifth avenue this afternoon in the greatest parade ever attempted for the cause of woman suffrage.

The long line, swept out of Washington square shortly after 2 o'clock, a white ribbon of marching womanhood, spangled with the yellow banners of suffrage, broken here and there by the somber colors of detachments of men sympathizers. Over streets that had been swept and scrubbed till they glistened in the sunlight, they paraded to Central park at Fifty-ninth street.

Tens of thousands, held to the curb by 1,200 bluecoats, gave vociferous welcome and applause. For days leaders of the parade had planned the pageant until it was letter perfect. The city authorities, intent on avoiding repetition of disorder during the suffrage parade at Washington, made elaborate police arrangements.

Hundreds of women from other states and scores of suffrage associations were in line. Almost every scale in the social system was represented, from women of wealth foremost in the fight, to house servants from the equal suffrage nations of Europe, clad in their national costumes. Women voters from the nine "white" states on the suffrage "map;" "General" Rosalie Jones and her little "army" of pilgrims; clerks, stenographers, telephone operators, shop girls, milliners, factory workers—these and marchers from almost every other calling where women labor were in the procession, each carrying a tiny yellow flag.

At the plaza where Central park meets Fifty-ninth street and the avenue, the marchers disbanded for two mass meetings, one in the plaza, the other at Carnegie hall.

Under the command of Miss Josephine Beiderhase, chief marshal, the local paraders marshaled behind the banners of the seven woman suffrage organizations which have headquarters here. Those from out of town gathered under banners of states where they vote.

MISS MILHOLLAND LEADS.

The order of march placed the National Equal Franchise Woman Suffrage association in the lead, with Miss Inez Milholland, mounted color bearer, in the front ranks.

Following then the congressional committee of the association from Washington, led by Mrs. Alice Paul and Lucy Burns, then women voters from the nine suffrage states and Alaska. The latter were garbed in white with laurel wreaths and golden stars in their hair and bore aloft a map of the United States showing the states where "victory has been won."

The Women's Political union, divided into "professional groups," and "business women," prepared to fall in next. The Men's League for Woman Suffrage and store clerks, stenographers, milliners, dress and white goods workers and house servants from the suffrage nations—Norway, Sweden and Finland, in national costume.

SEA OF YELLOW.

The Equal Franchise society, the New York State Women's Suffrage association, the women's suffrage party, the College league; the Men's League for Women Suffrage; delegations from the non-suffrage states and the Political Equality association followed in order named.

The Woman's Suffrage party wore yellow George Washington straw hats, adorned with yellow roses; men and every man and woman in the parade carried a yellow suffrage flag. The men's division, mustered behind Oswald Garrison Willard and Mrs. Beatrice Forbes Robinson-Hale on horseback, and a cavalcade of other prominent men and women in couples.

Conspicious in the lineup was the little group of pilgrims commanded by "General" Rosalie Jones, who are famous for their cross country marches.

PHOENIX LIFE QUITS THE PALMETTO STATE

Louis Sherfesee, South Carolina Manager, Comes to Atlanta as Georgia Manager

(Special Dispatch to The Journal.)

COLUMBIA, S. C., May 3.—It is announced here that the Phoenix Mutual Life Insurance company, of Hartford, has withdrawn from South Carolina, and the company will not tarnsact further new business in this state for the present. On January 1, 1912, the Phoenix Mutual Life had 1,666 policyholders in South Carolina, carrying insurance to the amount of $2,682,601.

The policies will not be affected by the retirement of the company from this state, as President Holcombe in his letter to the policyholders states that the company will continue to give the very best service to all members who have entrusted them with the care of their insurance.

Louis Sherfesee, of Charleston, S. C., was the company's manager in South Carolina for many years and he conducted the business successfully, as shown by the record made. Mr. Sherfesee has been promoted by the Phoenix Mutual as general manager for the state of Georgia, with headquarters at Atlanta in the Third National Bank building.

Mr. Sherfesee was well known throughout South Carolina and he was recognized by the representatives of other companies as being one of the leaders in the insurance world and a man thoroughly conversant with the life insurance business. Mr. Sherfesee was active in the State Life Underwriters' association, being its active vice president at the time of his removal from Charleston to Atlanta.

SUPREME COURT HEARS NELSON CONTEMPT CASE

Arguments In Famous Kansas City Newspaper Case Before Missouri's Highest Court

(By Associated Press.)

JEFFERSON CITY, Mo., May 3.—Arguments in the contempt of court case against William R. Nelson, editor and owner of the Kansas City Star, were to be heard at today's session of the Missouri supreme court. The case on appeal from Kansas City, where Judge Joseph A. Guthrie, of the Jackson county court, found Mr. Nelson guilty of contempt and sentenced him to a day in jail.

The sentence resulted from publication in Mr. Nelson's paper of an article stating that Judge Guthrie had refused to dismiss a divorce suit settled out of court until attorneys' fees had been paid. The article stated the couple who filed the divorce suit had been reconciled and asked the judge to dismiss it.

Commissioner Charles C. Grow, appointed to take depositions in the case, filed his report April 19, recommending Mr. Nelson be discharged and stating that the article which Judge Guthrie had held contemptuous was substantially true insofar as a layman could report correctly a court proceeding. The report held that Mr. Nelson had no "malicious intent" in publishing the article.

CHASE OF FOUR MONTHS ENDS IN MINNEAPOLIS

(By Associated Press.)

MINNEAPOLIS, Minn., May 3.—Chas. O. Carpenter, of Houston, Tex., was arrested here last night by postoffice inspectors after a chase of four months. Carpenter is accused of having sent threatening letters to Chevalier C. Leverde, said to be an Italian. The letters, it is claimed, related to the latter's wife, formerly Miss Mabel Lucile Greig.

20,000 CHILDREN HUNT EGGS AT GRANT PARK AS JOURNAL GUESTS

Annual Event Is Pulled Off Amid Ideal Conditions, With Record Attendance and Enthusiasm—Strains of Dixie From Band at 3 o'Clock Are Signal for Children to Begin the Search for 200,000 Hidden Eggs

Amid perfectly ideal conditions 20,000 children began the 25-The Journal and the city park board, started on the annual Easter egg hunt at Grant park this afternoon.

The hunt started promptly at 3 o'clock. At that hour the brass band stationed on a hill-top in the center of the park, played Dixie. This was the signal for the children to cross the lines and search for 200,000 candy eggs.

Forty thousand childish feet took their owners into the mysterious hiding places and in less than a moment after the band started the hunt was on.

The weather was ideal, warm and cloudless, and the ground and grass were dry. It was a record breaking hunt in point of attendance and enthusiasm of the children.

SPEIAL CARS.

Special cars were operated on the lines to Grant park, beginning shortly after 12 o'clock. The children lined up along South Boulevard, thence along driveway to the refreshment stand, thence along Constitution drive to Berne street back to South Boulevard.

In the middle of this tract, which covers sixty acres of the prettiest ground in the park, the eggs were hidden. A special detail of mounted and bicycle policemen kept order in the park, protected the children and held back the lines until the signal was given. At 12 o'clock all horse-drawn vehicles were barred from the park for the balance of day.

HUNT FOR PRIZES.

At random over the hunt ground were hidden forty wooden eggs, with numbers burned into the wood. These were the prize eggs, each number corresponding to a prize. Finders of the wooden eggs took them to the headquarters of the refreshment stand, and swapped them for written orders on the merchants giving the prizes.

Also, there was the grand prize golden egg, a beautiful piece of work the size of a goose egg, with a $5 gold piece inside.

Children over twelve years of age were not allowed to take part in the hunt, this rule being the same that has prevailed in all previous hunts.

Children who get lost should go to the concrete pavilion, and parents and escorts should go there to find lost children. Members of the hunt committee, together with police officers, will stay there until the last lost child has been delivered to the proper parties.

JOHN PHILIP SOUSA HERE FOR BIG GUN CLUB SHOOT

"You Can Fool People About Music," He Says, "but You've Got to Hit the Mark in Shooting"

"A horse, a dog, a gun—and a girl!"

That said John Phillip Sousa, noted bandmaster, Saturday, his eyes twinkling, "is my idea of heaven."

"But why put the girl last?" Mr. Sousa was asked.

"That," he said, 'is a thing I'll leave for you to figure out." And he declined to say why the girl didn't come first, except that "somehow they don't take to you like the horse and the dog."

Mr. Sousa is in Atlanta with his guns —one of the finest collections in the world, and will shoot Saturday afternoon at the opening meet of the Brookhaven Gun club.

He likes shooting, he says, because it is the cleanest of all sports.

"In music, you see," he said, "you can fool the people sometimes. A man who knows little about music can get off some clever give that impression that he is a genius. But in shooting, you've got to hit the mark."

Mr. Sousa is one of the world's most versatile men. He has composed music, written librettos, novels, poetry and Sousa's band is known wherever there is a rudiment of civilization. Mr. Sousa himself holds medals and honors conferred on him by many foreign rulers and is one of the most noted musicians in the world.

But just at present he is trying to get away from music until he takes up his work with the band in August. After that time he hopes to return to Atlanta with his band. He is going from Atlanta to the Georgia state shoot in Americus, then to Dawson, Montgomery, Ala., back to his home city, Washington, D. C., and to New York—all the while with his guns instead of his music rolls.

And he is just about as good a shot as he is musician, too. He has spent his vacations shooting for the past five years, and intends to keep it up.

Mr. Sousa thinks a great deal of the art of shooting lies in the gun.

"A man ought to measure just as carefully for his gun as for a suit of clothes," he said.

In addition to Mr. Sousa there will be several other crack shots at the opening meet of the Brookhaven Gun club Saturday afternoon. Among them will be J. M. Barrett, a crack amateur of Augusta; Walter Huff, of the Dupont Powder company; J. P. Lester, Charles E. Goodrich, of the American Powder Mills; H. D. Gibbs and George W. Maxwell, of the Remington arms U. M. C. company.

REAL SUMMER WEATHER IN SOUTH ON SUNDAY

Ninety Degrees Will Be Registered in Some States—Straws and Peek-a-Boos Out

(By Associated Press.)

WASHINGTON, May 3.—The first hot spell of the year is forcing an early appearance of the straw hat and the peek-a-boo waist in all the Atlantic coast states. On the other hand, there is a cold spell in the northwest and west that is keeping these same articles of spring wear in storage.

This condition, in the language of the weather sharps, primarily is caused by a conflict of a high barometric pressure over the south Atlantic coean with a corresponding low pressure that has made its habitat in the northwest for the last four or five months.

"I don't know just what the reason for this conflict is," said Observer Edward H. Bowie today.

"We expect the temperature all along the Atlantic coast to reach 90 degrees some time today or tomorrow."

In Wyoming, the Dakotas and down in Arizona and in nearly all the Pacific coast states there has been freezing weather.

DETECTIVES CONFER WITH CORONER AND SOLICITOR DORSEY

Following Meeting Lasting Two Hours, Officials Investigating Murder Mystery Visited Scene of Tragedy

NO CHANGE IN PLANS FOR INQUEST MONDAY

Progress Has Been Made in Developing Evidence, It Is Said, but Its Nature Has Not Been Divulged

The three central figures in the investigation of the Phagan murder case—the solicitor general, the coroner and the chief of detectives—held a conference Saturday morning, which lasted for more than two hours. The officials discussed the evidence in the case and the many theories which have been advanced, but refused to divulge any definite information about the long conference.

It is said, however, that the officials have decided to lend their efforts towards building their case on the ground that Mary Phagan never left the pencil factory.

New evidence, strengthening this view, is said to have been developed during the day by Detectives Black and Scott and Starnes and Campbell, but they refuse to divulge its nature.

It is said to be improbable that the method of legal procedure in the investigation will be changed. That is the coroner's inquest will be resumed Monday at 2 o'clock in the afternoon.

Dr. J. W. Hurt, the county physician, was one of the witnesses who conferred with the three officials at the solicitor's office Saturday morning, but he refused to discuss the case. Dr. Hurt made the examination of the dead girl's body.

M. B. Darley, general foreman of the National Pencil factory, and two young women employes were among the several witnesses examined by the officials during the conference. It is said that none of them disclosed events of importance.

VISIT SCENE OF TRAGEDY.

Following the conference, Solicitor Hugh Dorsey, his assistant, Frank A. Stephens; the coroner, the chief of detectives and Detectives Black and Scott met at the factory, which had then closed for the day, and went over the scene of the tragedy. It was stated that the inspection trip was made simply in order that the solicitor general might be made familiar with the building, the different distances, and other physical points in the case.

RUMORS DENIED.

Chief of Police J. L. Beavers and Chief of Detectives Lawrence A. Lanford both positively denied Saturday morning that there has been a confession from either of the men held in the Tower in connection with the Phagan murder mystery.

They characterized the rumors of a confession, which have been spread over the entire city, as idle gossip, which they say does a great injustice not only to Leo M. Frank, the superintendent of the factory, and Newt Lee, the night watchman, but to the men working on the case as well.

The two police officials, who have been constantly in touch with every movement in the case, declare that both Mr. Frank and Lee have by no way changed their statements that they know nothing about the crime in connection with which they are held.

Both officers deplore the wide circulation of the report of a confession and many other similar rumors, which, they say, are founded on no fact.

The elimination from the Phagan murder case of countless wild rumors and baseless reports has been occupying the time of the squad of detectives assigned to solve the Phagan mystery by Chief Lanford.

NEVER LEFT FACTORY.

The detectives have been successful up to the present in showing that every report that Mary Phagan was seen after noon of last Saturday was without foundation. If the girl did leave the National Pencil factory in the

POSTOFFICE BLASTED; ROBBERS GET $1,500

Adairsville Postoffice Is Robbed for the Second Time

(Special Dispatch to The Journal.)

ADAIRSVILLE, Ga., May 3.—The postoffice at this place was entered this morning and $1,500 taken, so C. H. Dyar, the postmaster, states. The explosion stopped the clock at 3:24.

The tools for gaining admission to the house were obtained from a blacksmith shop nearby. The men failed to gain admission at the front, but did get into the back door. The safe was blown with nitro-glycerine. No stamps were taken, neither were the checks of the rural carriers which arrived yesterday.

No clue was left. Government inspectors are expected today. It is the second time the same office has been robbed in three years.

Robbers Visit Many Stores in Garfield

(By Associated Press.)

GARFIELD, Ga., May 3.—Robbers took in practically the entire business portion of the town of Garfield last night. The postoffice was broken into but an entrance to the safe was not effected, the Southern Express office was broken open and some things taken; the store of William Swain was entered and three suits of clothing taken; R. T. Chaney's store was broken into, and at Lamb & Grey's store a few things were stolen.

At R. T. Chaney's the small change was stolen, and about five dollars was stolen from a box in the Pythian lodge. A posse went out with dogs today, but so far nothing has developed that indicates a probably capture.

It was reported that the town of Thrift was similarly visited the night before.

DR. JAMESON MAY GO TO OKLAHOMA

President of Mercer University Receives Attractive Offer

(Special Dispatch to The Journal.)

MACON, Ga., May 3.—Dr. S. Y. Jameson, president of Mercer university, has returned from Arkadelphia, Ark., where he went to confer with the trustees of Ouchita Baptist college relative to an offer that has been made to him to take the presidency of that institution.

Dr. Jameson declared upon his return that there were many things about the position that appealed to him, but he had not yet made up his mind what he would do. Close friends of Dr. Jameson, however, believe that he will accept the offer.

In case he does the trustees of Mercer university will begin to cast about for a man to fill his place. So far no names have been mentioned in this connection and nothing will be done until Dr. Jameson announces his decision.

"I WOULD SELL NERVE," SAYS MAN ON GALLOWS

(Special Dispatch to The Journal.)

LOUISVILLE, Ga., May 3.—Will Thompson, the negro who killed Claud Humphrey at Avera two years ago, was hanged here Friday. After Thompson had mounted the scaffold the sheriff asked him for a statement, if he wished to make any. He said:

"If I could sell my nerve I would like to sell the people of Avera about $2,000 worth; I have plenty to spare."

When the hour drew near for the execution, Sheriff Smith went to Thompson's cell to tell him to take preparation. He refused saying that he didn't intend to be hanged. He did not submit until the sheriff brought his shotgun in and told him he would shoot his hands both off if he resisted further.

J. C. M'CABE DIES IN FORT WORTH, TEX.

(By Associated Press.)

FORT WORTH, Texas, May 3.—J. C. McCabe, general freight agent of the Chicago, Rock Island and Pacific railway and brother of Fourth Vice President McCabe, of the Pennsylvania system, died here today. He suffered a stroke of paralysis at San Antonio about a month ago. He is survived by his widow.

The funeral will be held here Sunday.

WOMAN IS KILLED BY ACCIDENTAL SHOT

President Holds a Reception at Top of Wash'ton Monument

(By Associated Press.)

WASHINGTON, May 3.—President Wilson ascended the Washington monument today and held an informal reception in the tower at its summit.

The president had strolled away from the White House, accompanied only by Joseph W. Murphy, one of the secret service men, and had stopped for a few minutes to watch "a kid's ball game," when he suddenly took a notion to join the crowd of tourists who meet at the monument throughout the day.

At first the president was not recognized, but when one man spied him and insisted on shaking hands, the entire party grouped about the president and greeted him.

When he descended, the elevator was crowded, so the president gave up his seat to a woman passenger and stood during the trip down, which takes several minutes.

PAINTS A PICTURE WHICH EVERYBODY WILL WANT

(By Associated Press.)

NEW YORK, May 3.—Miss Evlina James, of San Antonio, Tex., an art student here, is receiving congratulations of her friends as she is the girl whose portrait is likely to become more popular than any other.

It is safe to say her picture will be in every American home, as it will appear exclusively on Uncle Sam's paper money. It was recently selected by a committee of congress as the central feminine figure of a decorative group on the reverse side of the new currency.

Miss James is the daughter of Mr. and Mrs. S. A. James, of San Antonio.

WILSON GIVES JOB TO MAN HURT IN SERVICE

(By Associated Press.)

WASHINGTON, May 3.—President Wilson today prepared an executive order putting into the civil service Swend Swenzen, of Brooklyn, who lost a hand and arm while employed by the federal government in construction work at Neeley Landing, Mo.

While the president is understood to be opposed to executive orders taking persons into the civil service without usual competitive examinations, he felt in this particular case he was justified.

Sunday School Picnic

(Special Dispatch to The Journal.)

COLUMBUS, Ga., May 3.—Over a thousand Columbus people are spending today at Warm Springs, the occasion being the annual picnics of the First Presbyterian, the First Baptist and the St. Luke Methodist Sunday schools. The party left the city over the Southern on a special excursion train at 7:30 o'clock this morning.

A man living at Auburn, New York, had a severe attack of kidney and bladder trouble. Being a working man, not wanting to lose time, nor run up a heavy doctor's bill, he cured himself completely by using Foley Kidney Pills. A year later he says: "It is a pleasure to report that the cure was permanent." He has had no return whatever of the pain, backache and burning. His name is J. A. Farmer, and he says: "I of course I recommend Foley Kidney Pills as a very effective cure for kidney and bladder trouble." For sale by all dealers.—(Advt.)

COUNTESS OF COTTENHAM IS ACCIDENTALLY KILLED

Body Found in Wood and Mystery Surrounded Death Until Husband Testified

(By Associated Press.)

HENLEY, England, May 3.—"Death by the accidental discharge of her own shotgun," was the tragic fate today of the Countess of Cottenham, wife of the Earl of Cottenham.

The countess' twin sister, daughter of Marquis of Abergavenny, was found dead in 1910 with a gunshot wound through the heart in the grounds of the family residence in Oxfordshire.

Today's affair was at first a mystery. It was not known whether the countess had taken her own life, and been murdered or had been accidentally shot, until the Earl of Cottenham himself testified at the coroner's inquest. He said he had been out with his boys and when he returned and found his wife missing he instituted a search, which resulted in the discovery of her body with the gun beside it near the stump of a tree over which she evidently had stumbled, at the same time accidentally discharging the weapon. The jury thereupon returned a verdict of accidental death.

The countess was an enthusiastic huntswomen and a fine shot. She frequently roamed through the preserves of her estate at Elvenden Priory.

The twin sister of the countess was Lady Violet Nevill, who became Countess of Cowley, and whose divorce suit against Earl Cowley, in 1897, created a widespread sensation.

The Countess of Cottenham first married John Blundell Leigh, and also went through the divorce court in 1895, her husband being the plaintiff and the Earl of Cottenham the co-respondent. She married the Earl of Cottenham in the same year and had three sons, who are all living.

Rome Women Raid A "Wildcat" Still

(Special Dispatch to The Journal.)

ROME, Ga., May 3.—Refusing to tolerate the presence in their community of a wildcat still, and the almost open sale of liquor, a band of women residing at West Armuchee, in Walker county, searched the woods near Suttle's mill until the still was found. In the party were Mrs. S. Hunt, Mrs. Brock and daughter and Mrs. Anderson and daughter. The moonshiners were busy at work when the women approached, and immediately took flight, but not before they were recognized by the women.

Securing a pick, the amateur raiding party made a desperate effort to destroy the still. United States revenue officers were notified and made a raid in the hope of capturing the moonshiners and their outfit.

The raid had been tipped off, however, and when the officers reached the scene the still had been hurriedly removed and no one was about. Eight hundred gallons of beer were destroyed. It is said that the operators of the still are well known, and that arrests will follow unless they have fled the country.

LIFE'S STRUGGLE WITH ILLNESS

Mrs. Stewart Tells How She Suffered from 16 to 45 years old—How Finally Cured.

Euphemia, Ohio.—"Because of total ignorance of how to care for myself when verging into womanhood, and from taking cold when going to school, I suffered from a displacement and each month I had severe pains and nausea which always meant a lay-off from work for two to four days from the time I was 16 years old.

"I went to Kansas to live with my sister and while there a doctor told me of the Pinkham remedies but I did not use them then as my faith in patent medicines was limited. After my sister died I came home to Ohio to live and that has been my home for the last 18 years.

"The Change of Life came when I was 47 years old and about this time I saw my physical condition plainly described in one of your advertisements. Then I began using Lydia E. Pinkham's Vegetable Compound and I cannot tell you or any one the relief it gave me in the first three months. It put me right where I need not lay off every month and during the last 18 years I have not paid out two dollars to a doctor, and have been blest with excellent health for a woman of my age and I can thank Lydia E. Pinkham's Vegetable Compound for it.

"Since the Change of Life is over I have been a maternity nurse and being wholly self-supporting I cannot over estimate the value of good health. I have now earned a comfortable little home just by sewing and nursing since I was 52 years old. I have recommended the Compound to many with good results, as it is excellent to take before and after childbirth."—Miss EVELYN ADELIA STEWART, Euphemia, Ohio.

Daily Campaign Story

The Difference Between the Answer Book and the Catalogue.

A great many of our readers do not seem to understand what the Answer Book will be like. Of course, they are the readers who were not in last year's campaign, because they all know that the Answer Book was a book supplied for convenience in submitting answers, with a page for each of the 75 prize pictures and another page to write down from one to ten answers, the number allowed according to rules of the campaign. The Catalogue is a book containing 4,000 book titles and in it are the 75 prize titles used in this campaign. The Catalogue is an absolute necessity in this campaign, if you wish to win anything, and we do not believe there is one contestant who does not wish to win something and most of them are after the gold pile at that. Take a contestant who would try to go through without the aid of the catalogue and what is the result? He will turn in a set of answers composed of a great many titles not in our Catalogue at all and therefore cannot be correct. If he were using the Catalogue, he would not turn in any titles that were not there, because he would know that not being in the catalogue, they could not be correct. Last year's contestants who find themselves using the old catalogue will find themselves loaded with a nice bunch of incorrect answers.

Invest 25c in a new catalogue and get $1,000 in return.

COTTON MANUFACTURERS FAVOR CHILD LABOR LAW

Hooper Alexander Makes This Declaration in Speech to Georgia Educators

In a speech before the Georgia Educational association Friday evening, Hooper Alexander, declared that the next child labor and compulsory education law would come to the legislature with the backing of the cotton manufacturers of Georgia.

Mr. Alexander said:

"When the vital connection between the subjects of child labor and compulsory education are borne in mind, I am sure this audience will receive with gratification the announcement, which I am authorized to make, that when the proposition comes, as it will come, before the next legislature to enact an effective and uncomplicated law to put an end to the labor of young children in factories and mercantile establishments in Georgia, it will come with the sanction and indorsement of the legislative committee of the cotton manufacturers of Georgia behind it. I have drafted such a bill which will be introduced early in the session. It has been drafted at the request of the legislative committee and officials of the cotton mill association, and its provisions are agreed to by them as well as by the representatives of the National Child Labor committee.

WHERE OPPOSITION LIES.

"Such a bill received an almost unanimous vote in the house and would have been enacted last year, but for unfortunate and embarrassing complications growing out of the fact that the opposition to such laws no longer comes from the cotton mills, as it once did, but from certain mercantile establishments in the cities.

"The present law permits the employment of children as young as ten years and for days of eleven hours in length. The law which I hope is going to be passed this year will establish an unconditional limit of fourteen years.

"Nothing can prevent the enactment of this law except the opposition of certain merchants, most of whom are in Atlanta and other large cities.

"And I wish to call the attention of the Women's Federation of Georgia to this subject. If they desire to justify their existence, and particularly the clubs in the cities, they can do so by calling on dealers in dry goods and candies and make their wishes known in such effective fashion as will prevent the singling by the merchants of that old humbug argument, now abandoned by the mills, about helpless and dependent parents supported by ten-year-old babies.

"The costliest labor in this world is cheap labor. The factories have found that out. Instead today of bitterness and hard feeling between the factories and the opponents of child labor, and protracted controversies between them, they are at last united in a purpose of common economic wisdom and common humanity. The merchants are going to find it out also, and we are going at last to save their playtime to the children.

COMPULSORY EDUCATION.

"But there is another reform for which the mill interests of Georgia have long labored, and there is going to be presented to the next general assembly a bill for compulsory education, also backed by the cotton manufacturers.

"The Georgia Educational association has more potential capacity for speeding the enactment of these laws than any other organization in the state. They are now actively backed by the cotton mill association and the labor unions. I have labored in this cause twelve years, and though I will no longer be privileged to lift my voice in the legislative halls this year, I rejoice to see the day dawning for the final consummation of this hope. If this association and the women of Georgia in their organized clubs will get behind this movement, its triumph is assured. I have no hearing before the women's clubs, but I do now solemnly summon this association of Georgia educators to put their most earnest efforts behind the movements for compulsory education and against the wage slavery of little children."

PULLMAN CO. SEARCHES FOR DIAMOND ROBBER

The Atlanta police department has been asked by the Pullman company to look out for a robber who is said to have stolen between $8,000 and $10,000 in diamonds from I. Tinkus, of Indianapolis, on a Pullman car several days ago, between Indianapolis and St. Louis.

The robbery was reported to the Atlanta police by W. M. Camp, district superintendent of the Pullman company. It is said that there was one ring in the lot valued at about $2,000.

The car on which the jewelry was stolen passed through Atlanta several days ago, and it is thought that possibly the robber is in Atlanta now.

The Atlanta office of the Pullman company stated Saturday morning that they did not know who I. Tinkus is, further than that he is a resident of Indianapolis.

"NEWSIES" TO SUP AT Y. M. C. A. TUESDAY P. M.

Ten Atlanta business men have been selected by the members of S. V. D. fraternity in Atlanta for the privilege of giving each toward a supper to be given the newsboys of Atlanta in the assembly hall of the Y. M. C. A. Tuesday night, May 13.

None of these ten business men dreams that he has been selected for the honor of donating three of his dollars to such cause. They will know it until he is called on some time Saturday and told of the rare distinction that has been accorded him.

Arrangements are being made to entertain 500 or more newsies at the supper. Tickets will be distributed three days in advance.

"JOY RIDER" THIEVES GROWING PESKY AGAIN

The second victim this week of an automobile thief is Dr. W. W. Blackman, of 171 Capitol avenue. He attended the Atlanta theater Friday night and left his car at the curb as usual. When he came out it was gone, and so far a diligent search has failed to locate the missing machine.

Earlier in the week an automobile belonging to Will V. Zimmerman was taken from in front of the Lyric theater in the same manner. It was found the next day standing on Capitol avenue, where the "joy riders" had left it after using up all of the gas.

PARROTT'S COMPENSATION FIXED AT $1,000 A MONTH

Judge Pardee, of the federal court of appeals, has fixed the compensation of the late Samuel F. Parrott, one of the receivers of the A., B. and A. railroad, at $1,000 a month, or $12,000, for the time he served in that capacity. The estate will be given this amount.

Suffragette Beauties Who Posed in Tableau at Metropolitan Opera House

Some, perhaps most, of the young women selected to pose in tableaux at the Metropolitan opera house in New York to represent the advancement of women, are good to look on. The managers of the women suffrage party, who made the selections, picked out some of the most beautiful they could find. Particularly were they successful in the case of Pauline Fredericks, who represents woman, and Mrs. Sybilla Pope and Mrs. May Belle Morgan, who were among the ornaments of the show, dressed in Greek costumes.

"Yes," said Mrs. Morgan several days before the show, "I am going to appear in a Greek costume, and to live up to the part I am going to be barefooted, just like the Greeks in festivals and the boys in the spring time."

CONGREGATIONAL CHURCH TO HEAR SOCIOLOGISTS

Delegates to Report Sunday Evening on Recent Big Congress Here

For the benefit of those who were unable to attend the section meetings of the Southern Sociological congress, Dr. George L. Hanscom, pastor of Central Congregational church, Carnegie way and Ellis street, has arranged to have several members of the church and congregation give five-minute talks at the service Sunday evening.

The Atlanta committee of the church appointed delegates to attend the several sessions of the convention, and their reports will be both interesting and instructive. The speakers will be as follows:

On Child Welfare—Mrs. H. B. Wey and Mrs. J. W. Mason.

On Negro Problem—W. D. Smith and Prof. E. H. Webster.

On Organized Charities—Mrs. Laura White.

On Church and Social Service—J. Wallace Hoyt and A. W. Farlinger.

At the regular morning service Dr. Hanscom will deliver a sermon on the subject "Sin Causes Present and Eternal Loss."

Under the direction of Miss M. Ethel Beyer, the following music will be given at the services of the day:

ELEVEN O'CLOCK.

Organ—"Andantino"—Cesar Frank.
"Art Thou Weary?" P. A. Schnecker—Choir.
"Sun of My Soul," Sumner Salter—Mrs. Croft and choir.
Organ—Gullmant.

EIGHT O'CLOCK.

Organ, "Evensong"—Johnston.
"Hark, Hark, My Soul," H. R. Shelley—Miss Milledge and choir.
Solo, selected—Mr. Leslie Hubbard.
Organ—Kinder.

PALMISTS FOLD TENTS, PREPARING TO LEAVE

Prospect of Ashley Ordinance Passing Council Sends Them Out of Town

Atlanta's colony of palmists, clairvoyants, fortune tellers, etc., are said to be getting ready to fold their tents and fade silently away, on account of the Ashley ordinance.

Introduced in council some time ago, the ordinance has gone to the ordinance committee and will be reported back to council next Monday with a recommendation that it do pass.

A number of seers, accompanied by their attorneys, went to city hall Friday afternoon expecting the ordinance committee to take the matter up, but upon learning that the committee had acted already, they said they reckoned there was nothing to do but leave Atlanta.

ELOPEMENT CHARGE IS DROPPED BY HUSBAND

James Kelly, who came here to take his wife, Mary Kelly, home, following her alleged elopement with Allen Fox, of Greenville, S. C., withdrew charges he had preferred against the couple Saturday morning and neither of the principals was brought before the recorder.

The arrest of Fox and Mrs. Kelly was made at the request of the irate husband, who later relented and decided to let the matter drop.

SALVATION ARMY MAJOR BECOMES A BRIGADIER

Major A. W. Crawford, who since last August has been in charge of the Salvation Army in North and South Carolina, Georgia and Florida, has just been notified by national headquarters that he has been promoted to the rank of brigadier general in that army.

General Crawford will continue as head of the Salvation Army in the four states and will keep his headquarters in Atlanta. The promotion comes simply as a recognition of the value of his service.

The friends of General Crawford, who has been with the Salvation army for nearly thirty years, have arranged to tender their congratulations on his promotion at a special service at the Army hall Sunday evening at 8 o'clock.

General Crawford and Staff Captain William S. Quirk, will preside at this service.

REYNOLDS MISSING WHEN COMMITTEE WANTED HIM

"Man of Mystery" in Fire Probe Fails to Show Up at the Proper Time

The special committee of council which is probing the fire department met Friday afternoon to hear from Thomas Reynolds, "the man of mystery," who has made it appear that he could throw new light on the department's affairs. But Mr. Reynolds failed to show up, and the committee probably will wait on him no longer, but will go ahead and report to council next Monday.

Although members of the committee have not said what the report will be, it is generally believed in city hall circles that the committee will exonerate Chief Cummings of the R. E. Davidson charge, which was that Davidson gave him (Cummings) $400 "rake off" in the purchase of the Ninth ward automobile fire engine.

Davidson made his charge some weeks ago. On Friday he was before the committee again. He exhibited a stub in his check book showing where he drew $400 out of the bank to his own order in April, 1911. He claimed this was the money he gave to Cummings.

Mayor Woodward read a written report by Frank Hammond, his secretary, of an investigation of how the department handles hose, in which Mr. Hammond alleged that no tests are made, no account kept of wornout hose when sold, and no record kept of hose to determine if new hose should be supplied free under the guarantees to take the place of defective hose.

STATE OFFICIAL ARGUES FOR OWNERSHIP BY GOVT.

Judge Hillyer, R. R. Commissioner, Says Public Corporations Become Despots

Judge George Hillyer, of the Georgia railroad commission, in an address before the Atlanta Law school Friday, said that there is a tendency on the part of public utility corporations to meddle in politics, and the public is served consequently by a despotic class of servants.

Judge Hillyer pleaded for the protection of private right and property. He said, in part:

"If the government can run the postoffice, why not other public utilities? The postoffice is managed from the standpoint of public good, and the telephone and telegraph companies for private gain. Both are monopolies, but the private corporations create wealth so fast that they put Aladdin's lamp to blush.

"For fifty years postmaster generals have urged government ownership of the telegraph, which has been called the rich man's mail, but if operated by the government could be the poor man's mail as well.

"All public utilities should be operated by the government for the people's benefit, and the government operation of sewers, police and fire departments, waterworks, education, transportation, heat and power plants, telephone and telegraph companies, when run by the government means better service at a lower cost."

DULUTH NEGRO IN THE TOWER FOR HIS SAFETY

Fear that angry friends of George Seay, a white man who was murdered at Duluth on Thursday morning, would not allow the law to take its course, prompted Deputy Sheriff A. W. Boss, of Gwinnett, to rush Will Gathright, a negro, from the jail at Lawrenceville Friday night to the Fulton county Tower.

The deputy probably will remain here with his prisoner several days.

George Seay was found dying about two miles from his farm early Thursday morning. A number of wounds had been inflicted by an ax on his head. Friends started to bring him to a hospital in Atlanta in an automobile, but he died en route.

The negro Gathright, who lived just across the road from Mr. Seay, has been accused of the crime. It is said that the negro had blood on his hands when he was arrested.

COTTON SEED CRUSHERS PREPARE FOR MEETING

Convention in Chicago to Be Held June 23 to 25

Word has been received by Secretary P. D. McCarley, of the Cotton Seed Crushers' Association of Georgia, announcing the postponement of the annual convention of the Interstate Cotton Seed Crushers' association, which is to be held in Chicago. The dates now selected for this meeting are Monday, Tuesday and Wednesday, June 23, 24 and 25. The rules committee of this association will meet at the Hotel LaSalle on Friday and Saturday, June 20 and 21, to amend the rules under which this association operates, and have them in readiness to present to the convention on its opening day.

C. W. Ashcraft, of Florence, Ala., is president of the Interstate association, and in honor of his administration the Georgia association will make the trip to Chicago on a special train. It is expected that over 200 will go to Chicago to attend this meeting. The full program for the meeting will be announced later.

In a few days the Georgia association will announce its place of meeting and dates, as the state associations always meet after the Interstate association.

ENDEAVOR SECY. WILL TALK AT CONGREGATIONAL

Miss Mabel Langford, of Watkinsville, Ga., field secretary of the Georgia Christian Endeavor union, is in Atlanta for several days to confer with leaders of the Christian Endeavor societies of the city and to attend a meeting of the recently elected state officers. Miss Langford has toured the state several times in connection with church extension work for her denomination, and is well equipped for the larger field of organizing young people's societies of Christian Endeavor in churches now without such institutions. At 7 o'clock Sunday evening Miss Langford will speak to the Christian Endeavor society of Central Congregational church.

FORSYTH—Vaudeville.
LYRIC—"Billy, the Kid."
ATLANTA—"A Butterfly on the Wheel."
BIJOU—Vaudeville and pictures.

A bill of quality will be the vaudeville offering at the Forsyth next week. It will be a worthy successor to the attractions that ushered vaudeville back to the Forsyth.

The headline attraction will be Gus Edwards' pet act, "The Kid Kabaret." This act is one that was produced by Mr. Edwards last summer after he had left here. It is conceded to be one of the cleverest vaudeville star headliners yet presented, and is employing the "Song Revue," in which the song writer is appearing personally on the coast. There are fifteen clever girls and boys in the number, and it is in fact a miniature musical comedy, crowded with odd ideas that made it the big hit of Broadway this season. Belle Story, the pretty comedienne, who is an eastern favorite, but who never has been seen here in Atlanta, will be another of the star acts that will demand attention. Miss Story has personal charm coupled with talent that will make her a local favorite. Williams, Copeland and Thompson, in a comedy hurrah called "The Burglars' Union," will be another act that will have something to do with the drawing power of the bill.

Saturday afternoon the Atlanta is open again with a 25-cent matinee by Miss Billy Long and her company. The play is "A Butterfly on the Wheel," which has scored a big success since changes were made in the cast Monday night. The final performance of this play will be given Saturday night. The crowds which have seen the last two performances have been large and the management is convinced firmly that the company has won its place in Atlanta.

Next week the offering of the company will be new to stock patrons. It is a comedy of rare merit, "The Girl From Out Yonder," which has been seen here only once, and then at $1.50. It is a play of real merit, and has been cast so perfectly that Atlantians will be afforded laughs galore from the very rise of the curtain. Miss Long has a particularly pleasing part, while Mr. Vail, the leading man, is seen to better advantage than since the opening of the summer season. Seats are now selling for the week.

A matinee Saturday and the final performance Saturday night will conclude the engagement of "Billy the Kid" at the Lyric. Despite the rather misleading title of the play, the attraction has found favor with patrons of this house, as the play is well presented and furnishes two and a half hours of really good entertainment. The advance sale for the matinee performance this afternoon would indicate that the capacity of the Lyric will be tested at this performance. Announcement is made that "Billy the Kid" will be the closing attraction of the regular season at this house.

ICE WAGON DRIVERS ARE CHARGED WITH SWINDLE

New Scheme Alleged to Have Been Tried by These Negroes

Through the efforts of W. T. Buchanan, city inspector of weights and measures, a clever ice swindling game that has been carried on by negro wagon drivers for some time has been broken up and three of the thieves are behind the bars.

The "modus operandi" was simplicity itself, and officers are inclined to believe a rich harvest was being reaped. Either one of the ice wagon drivers himself, or the driver of a grocery wagon, would pick up a book of ice tickets laving about loose and keep it. The book would then be delivered to a regular ice wagon driver who would sell his load for cash and turn in the tickets at the office.

When reports of the loss of tickets began to come in, Mr. Buchanan had the company put serial numbers on all others printed and requested them to keep a record of each book and to whom it was sold.

As a result of this scheme which succeeded in tracing the guilty parties the negroes were arrested. At police court Friday morning three were alleged to have stolen ice books from the homes of prominent families on the north side. Tucker who, it is alleged, had taken an ice book while delivering groceries was bound over on the charge of larceny from the house. Decker and Morrow who were charged with having stolen books while delivering groceries, were fined $25 each, the witnesses not caring to appear against them in the state courts. Three of the wagon drivers were fined $15 last Wednesday, and cases are now pending against six more.

Grant Park Animals Multiplying Rapidly; But Baby Monk Dies

Obeying the Scriptural injunction to replenish the earth, and likewise the advice of Colonel T. Roosevelt, "in re" race suicide, the animals in the Grant Park zoo are multiplying so fast that Zoo Keeper Boyd is on the jump with his milk bottles and various baby animal paraphernalia.

Within the last few weeks, the following animals have been born in the zoo:

To Mr. and Mrs. Leopard, a kitten.

To Mr. and Mrs. Rhesus Monkey, a miniature edition of the missing link.

To Mr. and Mrs. Llama, a calf.

To Mr. and Mrs. Sacred Cow of India, a calf.

All are doing well except the baby monkey. It lived three days, then sickened and died. Yet in that short time it enjoyed the distinction of being the third monkey to be born in captivity in the United States. Perhaps fame sat too heavily upon its infant shoulders.

The leopard kitten is as frisky and full of life as any pampered Maltese that ever lapped cream in a rich man's house. It wakes at sunrise, greets the morning with a wildcat solo, and is a universal favorite among the children.

The baby llama and the baby sacred calf are the newest arrivals, and both bid fair to live and make husky specimens, as they are almost as easily raised in captivity as the offspring of ordinary domestic milch cows.

DR. POTEAT TO TALK ON AMERICAN STEWARDSHIP

Baptist Tabernacle Supply Pastor to Give Lecture Sociologists Stopped

Dr. E. M. Poteat, who was stopped from giving his address last Monday night on "American Stewardship" before the Sociological congress in Atlanta, and who is supplying the pulpit at the Tabernacle, will give on Sunday night, May 4, at the Tabernacle, that same address. Some of the Tabernacle members have heard this address, and they are quoted as saying that it is not a denunciation of Jew or Catholic, but a masterful address. The public is invited to hear Dr. Poteat.

That "SKUNKY" Taste in Some Beers

is caused by the action of Light.

This is the deliberate opinion of no less an authority than Philip Dreesbach, German expert and scientist in the Wahl-Henius Institute of Fermentology. He says:

"Beer acted upon by light soon takes up the very disagreeable, so-called 'light taste,' and also a repulsive skunk-like odor. Beer so affected is offensive to the palate of most consumers, and there is probably nothing that will influence them more against any brand of bottled beer than to have once tasted beer possessing this 'light taste' to a marked degree. The presence of this defect, however, is not always the bottler's fault, as the consumer himself very often lets the beer stand in the light. But the consequences must usually be borne by the bottler."

Schlitz is sold in Brown Bottles to protect its purity from the brewery to your glass.

In our brewery we spend more in purity—in time, in skill and in money—than any other cost.

Why don't you, too, demand the pure beer—Schlitz in Brown Bottles?

See that crown or cork is branded "Schlitz."

COTTON MARKET STEADY; PRICES SLIGHTLY LOWER

Market in New York Closed 3 to 6 Points Down from the Previous Close

(By Associated Press.)

NEW YORK, May 3.—Cotton opened steady at unchanged prices to a decline of 1 point. Cables were better than due. Liquidation reported to the southwestern part of the belt were considered by numerous weather and crop reporters influenced by numerous bearish new crop reports. Prices eased off to a net loss of 3 or 4 points right after the call but trading was very quiet. Selling on the favorable crop news seemed to be held in check by a tendency to await developments in the old crop deliveries and by the relatively firm cables.

NEW ORLEANS COTTON

(By Associated Press.)

NEW ORLEANS, May 3.—Cotton futures reopened steady, unchanged to 2 points down, compared with the last prices of yesterday. Cables were better than due but no attention was paid to them. The weather map was generally favorable and indicated that good showers fell in Texas, where they were said to be needed. The remainder of the belt was dry. Temperatures were about normal. In the early trading October showed a net advance of 1 point but the advancing tendency was checked by selling which followed the favorable reports from the greater part of the western and central belts, bears claiming that the promised moisture would be beneficial. At the end of the first half hour of business prices were up 2 to 3 points under yesterday's close.

The market had an easy undertone until the middle of the morning when prices were 3 to 5 points under the last quotations of yesterday. From then on there was less cotton for sale on the market and the market had a better tone but displayed very little response power. Support came principally from shorts who wanted to even up over the week end. The close was steady a net decline of 2 to 3 points.

NEW YORK COTTON LETTER

(By Associated Press.)

NEW YORK, May 3.—The weather brought the market for reaction yesterday were selling on this morning after seeing the favorable map with rains in west and general fine weather over Sunday in central and western and probably eastern belt. There was special support, only covering by those who had sold at a higher price. The market was not pressed at times and a lower market is predicted for next week should the rains materialize. There is still believed to be a good crop and the weakness of new crop prices at the end of July but the weakness of new crop prevents rally in the summer option. Wall street was reported a seller of new crop months.

INTERESTING NEWS AND GOSSIP OF THE MARKETS

Weather Reports, Crop Advices, Expert Opinions and Newspaper Comment

COTTON GOSSIP

Times-Democrat says: Friday's cotton market disillusioned the bulls. The bears had been multiplying their forces for days. Then Saturday's market will probably reflect greatest confidence both ways and was opened indifference among talent and trade. The promised rain came, but was delayed, and, when it dispirited, the weather was favorable all over the belt, cheerful reports favorable in spite of a much smaller interior movement than last year. Liverpool reported the thirty months' consensus, there was an excuse for a reaction downward, and, as usually the case, the odd at the close the talent regarded the market as a waiting affair, and one capable of being moved in either direction by a certain narrow limits, according to immediate influences. Secretary Hester's weekly New Orleans tabulation caused a variety of comments, ranging all the way from highly favorable to unfavorable. In spite of a much smaller interior movement than last year, and, although, the thirty principal towns, good rains over night in south and southwest Texas.

The map shows fair in Alabama, Atlantic, cloudy elsewhere, raining in many Texas towns, good rains over night in south and southwest Texas. Prospects are for rains, storm moving eastward and causing general precipitation over Sunday in central and western states.

Forecast: Louisiana—Unsettled in north portion, fair in south portion today, light to moderate southerly winds on the coast.

Mississippi—Unsettled showers tonight or Sunday, colder in west portion.

Oklahoma: Unsettled showers tonight or Sunday, cooler.

East Texas: Unsettled showers tonight or Sunday, warmer in west portion tonight, cooler Sunday except in southeast portion moderate to brisk southerly winds on the coast.

West Texas: Unsettled tonight and Sunday, fair.

Kentucky: Increasing cloudiness followed by showers and thunderstorms late tonight to Sunday.

Georgia, South Carolina and North Carolina: Fair tonight and Sunday.

Alabama: Unsettled Sunday cloudy.

Tennessee: Increasing cloudiness followed by showers and thunderstorms late tonight to Sunday.

Mississippi: Showers tonight or Sunday, warmer central portion tonight.

Arkansas: Showers probable; Jackson, Grenada to Memphis through hill section of Mississippi soil in excellent condition, pleasing most complete rains, prospects unexcelled. Some replanting necessary, central part of state. Weather warm, favorable for rapid germination but start as a whole very favorable. Rice: Selling rapidly, situation greatly relieved in Arkansas and delta. Weather warmer and clear.

Dallas wires: Texas generally cloudy, hard rain Amarillo, San Antonio, Abilene, Oklahoma generally cloudy, scattered rains.

Liverpool cables: Trade on continent very bad. Italy almost decided to go short time.

Those who have been expecting the bull side for autumn seem to have lost faith and are selling. Spinners stood said to be a seller on favorable weather.—Andy.

After consulting with Hartcorn, Russell, Schill and Rait among leading buyers, Mitchell, Schill, Martin, Young, Newman and Barrett among sellers.

New York wires: Understand considerable freight room cancelled and cotton will be reported tendered on May.

STOCK GOSSIP

Dun-Jones summary: Trainmen and conductors on eastern railroads to take strike vote following similar act of railroads in the west.

London cable says Austria will probably take no active part. Montenegro still after ammunitions more Monday. Russia and Turkey also stock exchange in convention bill. Greece can area Cyprus and Greece consolidated. Copper companies to pass dividends for quarter, owing to turmoil in Mexico. Twelve industrials declined .28; twenty active rails declined .31.

The bank statement will show an increase in reserve. The reactionary tendency of the last hour of business yesterday will probably also continue this morning. The discouraging part of the situation is the disposition to liquidate stocks by those who have considerably the investment issues like Illinois Central, New Haven and others. Reactions will offer opportunities to take a decided turn for the better next week, prices would probably become active and go some higher.—Potter.

Rock Island earnings, March net increase $103,000, nine months' net increase, including $1,400.

Bartlett, Frazier & Co., say: Wheat—We consider the market unchanged. There is fair selling and are inclined to look for a steady market today.

Corn—We do not look for any decline still there is more pressure is the way of helping trade.

Oats—Offerings from the country are rather heavy, but the local market is holding strong on dry weather reports from numerous sections and more or less corrugating reports.

Provisions—Cash trade seems to be improving a little and we look upon the buying part of it as good character.

Girard, Crawford county, Kan., says chinch bugs are encouraging farmers here. A week ago we never had a better prospect for wheat, but it looks as if fields will be destroyed in another week. Oats are being damaged the same way.—Kansan.

HAYWARD & CLARK'S COTTON LETTER

NEW ORLEANS La., May 3.—The foreign press takes a more hopeful view of the political situation in Mexico and, stating that it is time to grant a further respite to arrange matters with the insurgents, rumors that some of the Liverpool houses would re-tender instead of shipping their cotton on contracts passed. Liverpool is good, with futures about three points higher. Spot sales, 6,000, of which speculators took 500 and exporters 1,000. Manchester is quiet and unchanged. Yesterday's visible supply of cotton as above shows a decrease compared with last year of 182,000, a decrease compared with last year of 211,195, a decrease compared with year before last of 1,096,078.

Of the world's visible supply of cotton as above there is now afloat and held in Great Britain and continent 1,745,000, against 3,092,000 last year and 2,015,000 year before last, in Egypt 185,000, against 284,000 last year and 165,000 year before last; in India 968,000, against 703,000 last year and 628,000 year before last, and in the United States 975,000, against 950,000 last year and 744,000 year before last.

HESTER'S COTTON STATEMENT

NEW ORLEANS, May 3.—Secretary Hester's weekly New Orleans cotton exchange statement issued before the close of business today shows the movement into sight, compared with the seven days ending this date last year in round figures, as well as the increase in last year before last for 27,000, and an increase over the same time 1910 of 9,000.

For the two days of May the totals show a decrease under last year of 24,000, and under the same period year before last of 10,000, and under the same time in 1910 of 9,000.

So far this year of the season th athave elapsed the aggregate is behind the 244 days of last year 2,130,000 and ahead of the year before last 1,698,000, and ahead of 1910 by 3,335,000.

The total brought into sight during the past week has been 82,604 bales, against 134,820 in the seven days ending this date last year, 65,290 year before last and 82,882 same time in 1910, and for the days of May to date 11,000 has been 14,861, against 26,413 last year, 4,986 year before last and 5,617 same time in 1910.

Receipts at all interior towns 31,380 as reports at all United States ports 7,288,257, against 8,288,555 last year, 7,561,955 year before last and 6,790,612 same time in 1910.

Overland ports and Canada included in these figures with total figures also, same last year 748,787, same year before last 2,255,298 last year, a decrease of 2,098,474.

Northern mills takings and Canada during the past week have been a decrease of 25,000, as compared with the corresponding period last year, and their total takings since September 1 have decreased 281,566. The total takings of American mills, north, south and Canada, this far for the season have been 4,999,323, against 5,280,889 last year. The balance of 2,167,119 by northern spinners against 2,448,-655.

Stocks at the seaboard and the twenty leading southern interior centers have decreased during the week 141,000 bales, against a decrease during the corresponding period last year of 84,355, and now 201,000 more than at this date in 1912.

Including stocks left over at ports and interior towns from the last crop and the number of bales brought into sight during the week, the new crop, the supply to date is 13,299,276, against 15,351,492 for the same period last year.

SPINNERS' TAKINGS

NEW ORLEANS, May 3.—Secretary Hester gives the taking of American cotton by spinners of the United States and Canada, in round numbers:

This week 239,000 this year, against 354,000 last year, 237,000 year before last.

Total since September 1, this year 11,121,000, against 12,130,000 last year, and 10,980,000 the year before.

Of this northern spinners and Canada took 2,167,000 bales this year, against 2,448,000 bales last year, 2,255,000 year before last. Southern spinners 2,562,000, against 2,190,000 last year, and 1,551,000 the year before; and foreign spinners 6,452,000, against 7,482,000 last year, and 5,863,000 the year before.

CHICAGO GRAIN AND PROVISIONS

World's visible 4,631,970 against 4,916,221 last year.

American 3,201,970 against 3,729,221 last year.

APATHY PREVAILED IN THE NEW YORK STOCK MARKET

Some Stocks Fluctuated Very Sharply Under Specific Influences—Leaders Dull

(By Associated Press.)

NEW YORK, May 3.—Depression of the leading stocks gave the market an appearance of lifelessness at the opening. Lehigh Pacific, Reading, Steel and Amalgamated sold a half point below Thursday's close. Changes among the less active stocks were small and for the most part recessions.

When the stock pressing on the market had been taken care of the list stiffened but as the recovery lacked snap, traders sold sparingly again.

Bonds prevailed in the market's of the world today. Hesitancy abroad was attributed to lack of definite political news. Locally the market experienced a mild depression. Some stocks and bonds fluctuated sharply in connection with specific influences, but movements of the leaders were closely circumscribed. Midsummer conditions prevailed. The torrid weather and general lassitude of speculation were taken advantage of by many operators to remain away from the street.

GEORGIA EDUCATORS ELECT NEW OFFICERS

P. S. Pelhill, of LaGrange, Was Chosen President—Meet Comes to a Close

With the election of officers for the ensuing year the annual convention of the Georgia Educational association that has been in session since May 1 at Taft hall came to a close.

Following are the officers chosen unanimously:

P. S. Pelhill, LaGrange, Ga., president.

P. C. Wardlaw, Athens, Ga., first vice president.

Miss Eliza Holt, Augusta, Ga., second vice president.

C. L. Smith, LaGrange, Ga., secretary.

Ralph Newton, Fort Valley, Ga., treasurer.

Both secretary and treasurer were re-elected, while all other officers are new. The board of directors was also named. The first members are: Superintendent R. E. Brooks, Dublin, Ga.; Superintendent George D. Goddard, Moultrie, Ga., and Superintendent Jason Scarborough, Tifton, Ga.

The closing session of the convention occupied practically all of Saturday morning, though mostly routine matters were taken up and the report on the selection of a state song referred to the board of directors. The report committees were also received and a general discussion of school work indulged in.

ATLANTIAN MAY BECOME A GENERAL IN THE ARMY

Georgians are interested cordially in the report which comes from Washington that William W. Forsyth, now a lieutenant colonel of cavalry in the United States army, is being urged impressively upon President Wilson for appointment as brigadier general in a vacancy soon to occur. Colonel Forsyth is an Atlantian born and reared, and if he is made a brigadier he will be the first Georgian to become a general officer in the army in 50 years or more.

Senator Hoke Smith and Senator A. O. Bacon, of Georgia, Congressman William Schley Howard, and other Georgia congressmen and legislators and citizens of high degree from other states, are placing their efforts behind the movement already started in behalf of Colonel Forsyth. Colonel Forsyth is a son of the late William Forsyth, one of the before-the-war leaders in Atlanta, and is a relative of old Governor Forsyth, for whom that street in Atlanta is named. He entered the army through West Point in time to see active service against Indians, and in later years he was in the field in the Spanish-American War, the uprising in China, the Philippine insurrection, and the Moro campaigns.

Colonel Forsyth has been for some months past on detached duty from the Sixth cavalry, his regiment, as superintendent of Yosemite National Park, in California.

BIG REVIVAL BEGINS AT CHRISTIAN CHURCH

The West End Christian church will begin a series of evangelistic services Sunday morning. Evangelist John T. Hawkins has been secured as leader for this meeting. Mr. Hawkins is a resident of Kentucky, but has done evangelistic work in twenty states. He is a man in closest sympathy with both the young and the old, and he comes to Atlanta with a splendid record of achievements.

Mrs. Katherine King has been secured as soloist. She was for awhile associated with Evangelist Yuell, so well known by his revival held in Atlanta a few years ago. Tyre L. Jennings will serve as leader of songs. With three leaders associated with the local minister, the church is expecting one of the greatest meetings in its history.

There will be services each day at 8 p. m. for several weeks. The public is invited.

THIS INTERESTS EVERY WOMAN.

A family doctor said recently that women come to him thinking that they have female trouble, but when he treats them for their kidneys and bladder, they soon discover. This is worth knowing, and also that Foley Kidney Pills are the best and safest medicine at such times. You cannot get better or more reliable. Backache, weary aching feeling, aching joints, irregular kidneys and bladder action and restlessness are the kidney troubles they cure. They are tonic in action, quick in results. NEGRO BOY "TURNS UP" BLIND TIGER IN PEEVE

A little negro boy who was peeved because he alleged that his employees failed to keep faith on the salary question, appeared as the principal witness against them in recorder's court Saturday morning, and George Poulas and Charles Nivino were bound over under bonds of $200 and $300 respectively, on the charge of conducting a blind tiger at 19 1-2 South Broad street.

Detectives who were piloted to the place by the boy found a dozen pints of whisky and a barrel of beer under the floor. Access to them was through a secret trap door.

CONDUCTED BLIND TIGER IN BED FACTORY

Jimmie James must pay a fine of $500 or serve 30 days on the chaingang for conducting a blind tiger at the Metal Spring Bed factory, on 99 Mead street, where he was employed.

From the evidence brought out at recorder's court Saturday morning it was proved that James had been selling whiskey to the employees of the factory and received two cases a week from Chattanooga, Tenn., to replenish his stock.

SCRANTON POLICE GET A MAN ATLANTA WANTS

Frank Stomaken, wanted in Atlanta on the charge of larceny after trust, has been apprehended in Scranton, Pa., where also he is wanted on two indictments of a similar offense.

According to city detectives, Stomaken was in the employ of a local cigar house, and appropriated $180 he had collected for them.

The prisoner will stand trial first in Scranton, and, if freed, will be brought to Atlanta by Detective Hollingsworth, who has been named to make the trip, his agent was not convicted.

ALL IS READY FOR GREAT MEET SUNDAY OF TWO BIBLE SCHOOLS

Joint Meeting of Second Baptist and First Christian Schools, Champions of Big Contest, Will Pack Auditorium—6,000 Scholars Expected Visitors to Have Upper Balcony

If the fine, fair weather augurs anything, there's going to be a real multitude around the capitol tomorrow morning when the Second Baptist and the First Christian Sunday schools get together there to their march to the auditorium. That is just what the pastors and superintendents and other leaders of the rival big schools are expecting.

They met Saturday forenoon to arrange the final details for the meeting an dthe march to the auditorium and the joint session there. Present at the conference were Rev. Dr. John E. White, pastor of the Second Baptist; Rev. Dr. L. O. Bricker, pastor of the First Christian; C. V. LeGraw, superintendent, and A. M. Beatty, of the First Christian Sunday school; and J. S. Spalding, superintendent, and William Hurd Hillyer, of the Second Baptist school. The finishing touches were added then to the program—which will begin when each school leaves its own quarters. The Second Bapist school will march to the Washington street entrance of the capitol and form on the left side of that entrance. The First Christian school will form on the south of the same entrance. Photographers and their pictures will be taken of both schools there and during their march. A squad of policemen will keep intruders away from the ranks of the schools, the scholars, young and old, will march across the Washington street viaduct.

OTHERS TO AUDITORIUM.

"There is one thing that we want to impress upon every one," said Superintendent LeCraw, after the meeting Saturday. "It is this: We want all of our friends—everybody who is not enrolled in one school or othe other—to go directly to the auditorium. We do not want them to meet us at the church or the capitol. If they attempt to be with us anywhere except in the auditorium, they merely will confuse our order."

The whole lower floor of the auditorium has been reserved for the two schools, of which there are expected to be over 6,000 scholars present. The total enrollment of the two is something over 8,000. The upper balcony of the auditorium will be open to the friends of the Snuday school movement. Ushers will be there to direct everybody.

One week from tomorrow will see the end of the three months' contest between the two schools for enrollment of new scholars and promptness of all who are enrolled. The prize of that contest is a picnic, to be given by winner to loser. But in the enthusiasm which it has aroused, the contest almost has been lost from sight. It has created a spirit so much greater than itself that it has become merely the yeast in the growth of those two schools.

"Too, it has scattered the bacteria of development abroad through the Baptist Sunday schools of the city and, in combination with the spring itself, is about to make them heave a challenge at all the Methodist Sunday schools of Atlanta for a contest that would be really tremendous in its proportions.

CONTEST IS SECONDARY.

"The matter of winning or losing has become merely a secondary consideration," said one of the leaders in the Second Baptist-First Christian contest, Saturday morning following the conference. "The purpose now is to help all Sunday schools in general and our own in particular. We want to reflect credit upon the greater cause that we represent. Our desire is that good shall be done all around."

The best of spirit marks the cordial rivalry between the two schools of the joint meeting tomorrow.

A. M. Beatty, manager of the Postal Telegraph company's Atlanta office, received the following wire Saturday morning from Colonel F. J. Paxon, who wed recently. Mr. Beatty is the man who laid down the challenge for the First Christian church, and Colonel Paxon is the man who accepted it for the Second Baptist.

New York, May 3, 1913.

"A. M. Beatty, Atlanta.

"Hearty congratulations upon the magnificent spirit that both the First Christian and the Second Baptist Sunday schools are making. They are setting a standard for future development. The effect is bound to be far reaching and to give an impetus to all religious work both in the schools and the city. Wish we could be with you Sunday.

"FREDERIO J. PAXON."

A GREATER CONTEST.

The Journal's exclusive forecast, published Friday, of an impending contest between the Methodist and Baptist Sunday schools of Atlanta, with 20 schools and about 12,000 scholars in each denomination, showed what already is known to be built upon the foundation that the First Christian and the Second Baptist have laid.

"I think that will be the biggest thing that the Sunday school world has soon," said C. V. LeGraw, superintendent of the First Christian Sunday school, referring to the greater contest. "It not only will demonstrate that there has started here a great new step in Sunday school work, but also that Atlanta is on the map, a prime mover in church and Sunday school work as well as in other things. It would advertise Atlanta more than any ordinary demonstration could do,—and at that, to the class of people who usually are not regarded as approachable with progressive publicity. It will attract to Atlanta the very kind of people that we want here."

POSTOFFICE SAFE AT ADAIRSVILLE IS BLOWN

Money Order and Postal Funds and Stamps Taken by Cracksman

Local postal officials received a notice today that the safe in the postoffice at Adairsville had been blown. Adairsville is in Bartow county.

The burglar got $114 of money order funds, $40 of postal funds, and stamps the value of which has not yet been determined.

Postoffice inspector Sutton and his force in the federal building are at work on the case.

NEW COTTON PEST IS EXPECTED IN U. S. SOON

(By Associated Press.)

WASHINGTON, May 3.—The department of agriculture is alarmed over a threatened invasion of these shores by the pink boll worm. "This dangerous enemy of cotton may be introduced into the United States at any time in cotton seed shipments from Egypt, India and other cotton producing areas where it is widely distributed."

It is feared the pest might thrive in this country and as it can live within the seed formed for six months, the danger is all the greater.

Department officials think it might do even more harm to cotton than the weevil now here, which crossed the border from the cotton fields of Mexico. Very little cotton seed is imported by this country. The department, nevertheless, has decided to be on the safe side and Secretary Houston has called a hearing for May 20, when it will be determined whether the quarantine law shall be invoked.

TO GIVE RECITAL FOR GIRLS' NIGHT SCHOOL

Young Women Will Help Supper Fund Grow by Giving Reading Saturday Evening

The Girls' Night school supper fund is to be helped by a recital Saturday night in Cable hall by Miss Agnes Coleman, Miss Verna Ruth Harris and Miss Ethel Thornton, all of whom have attained local fame in their work.

The night school has on its rolls more than 150 working girls, otherwise denied the advantages of education. The wonderful attendance has almost exhausted the supper fund, and officials of the school say they have found the rental necessary to pay the bills of the school for the nal month of the session.

The recital will be one of readings and elocution. Humorous, dramatic and dialect selections will be given.

The night school is located on the second floor of the Emery-Steiner building. The members of the school go there for instruction each evening at 6:30 o'clock, immediately after quitting work, and in order to save time supper is served them at the school. Much of the expense of these suppers is paid out of the supper fund by the school management.

ELK OFFICERS GUESTS OF EXALTED RULER A. L. DUNN

Unique Occasion in Fraternal Circles Wins Success—To Be Repeated

An occasion without immediate precedent in fraternal circles was that of the Dutch supper tendered to the officers and standing committee members of Atlanta lodge No. 78, B. P. O. E., Friday night at the Elks' home on East Ellis street, by Exalted Ruler Albert L. Dunn.

For several hours the informal gathering discussed affairs of Elkdom and planned for the best year that the Atlanta lodge has known.

An informal organization, termed "the committee of the whole," resulted spontaneously from the gathering. It is composed of the officers and standing committeemen of the lodge, will assemble hereafter on the first Monday each month, to discuss and formulate the policies of Atlanta No. 78, for submission later to the lodge.

DOMESTIC SERVICE IS A GRAVE PROBLEM

(By Associated Press.)

NEW YORK, May 3.—Domestic service is a grave problem, not because servants are scarce, but because so many of them are incompetent; and this incompetency is due largely to the attitude of employers, according to Herman Robinson, municipal commissioner of licenses, in his annual report issued today.

The report is based on investigation of New York employment agencies.

The agents assert employers as a rule fail to sufficiently provide for servants' comforts and don't take into account their ambitions.

"The social standing of the servant," says the report, "is the most important factor in the problem."

PATROLMAN SULLIVAN SUSPENDED FROM FORCE

Officer J. C. Sullivan, of the police force, who has been missing from duty and his home since April 1, was Saturday morning suspended from the force by an order of Chief of Police James L. Beavers.

Sullivan formerly resided at 433 Central avenue but left there. It was thought that he had gone to his sisters home on Fair street but inquiries developed the fact that he had not been seen about the premises for four weeks.

Chief Beavers will prefer charges against the officer at the next meeting of the police board.

Militants Burn School

(By Associated Press.)

ABERDEEN, Scotland, May 3.—One of the public schools of this city was partly burned this morning by militant suffragettes.

ATLANTA PRESBYTERIANS TO DOUBLE WITH IN TWO WEEKS

Gathering of Four Great Assemblies Here May 15 Will Add as Many Presbyterians as City's Population Has Now. Home Entertainment Being Promised for Delegates

Within two weeks Atlanta's Presbyterian population will have doubled. This census-breaking record will result from the gathering here of the general assemblies, the governing bodies of four great Presbyterian churches, and Atlanta's Presbyterian population of 4,500 souls will be called upon to entertain 1,500 commissioners to the assemblies, 500 or 600 members of societies affiliated with the assemblies and from 3,000 to 4,000 Presbyterian visitors who will come here from many sections just to see their church governing machinery in action.

Of course, Atlanta will not allow her Presbyterian citizenry alone to entertain so many distinguished visitors, so the members of that denomination are receiving in their hospitality task the assistance of members of every other denomination.

In fact, denominations are being forgotten, as Atlanta prepares to welcome so great and unique a religious gathering.

The largest of the assemblies will be that of the Presbyterian church, U. S. A. (northern), which has more than 1,500,000 members. This church expends more than $30,000,000 annually in various religious and benevolent enterprises.

The United Presbyterian assembly will represent here more than 178,000 members scattered in many parts of the United States, while the assemblies of the Presbyterian church, U. S. (southern), will represent a like number, and the Associated Reform Presbyterian church represents a smaller membership.

J. K. Orr heads the Atlanta entertainment committee, whose most important task has been the securing of homes for the many churchmen. And this work is not yet completed.

The detailed work of preparing for the unique religious gathering is in the hands of Rev. Jere A. Moore, executive secretary of the committee. He is keeping a force of six stenographers busy arranging the details of their visit with the men who are coming here from every state.

The assemblies of the four churches will hold separate business sessions: the U. S. A. assembly meeting May 15 at 11 a. m. at the Baptist tabernacle; the U. S. assembly meeting at the same time at North Avenue Presbyterian church, the United Presbyterians meeting at the Central Presbyterian church on the evening of May 14, and the members of the A. R. P. church meeting at the Whitehall street edifice of that body.

Each evening, commencing May 15 and continuing through May 23, the assemblies will unite in giant mass meetings in the auditorium.

CHARLES D. BARKER IS IN CRITICAL CONDITION

Charles D. Barker, who was seriously injured in a street car accident last November, is reported in a critical condition.

Following the accident, Mr. Barker spent three months in Florida in an effort to regain his health, but returned about a month ago in a serious condition, and since his return has suffered a stroke of paralysis.

Mr. Barker is well and favorably known among a large circle of friends. He published the Southern Star the only Prohibition paper in the south, for nearly twenty-five years, leaving the newspaper field to take up circulation work, which he was engaged in up until the time of the accident.

His many friends wish for him an intimate recovery, although little hope is extended in his present dangerous condition.

HALF-MILLION-DOLLAR FIRE LOSS IN ENGLAND

BRADFORD, Eng., May 3.—Extensive sheds belonging to the Midland railroad, containing much freight, burned down here last night, causing a loss of $500,000. Nineteen loaded freight cars and quantities of dry goods and carpets were consumed.

Mysterious fires have broken out in these sheds on three successive Friday nights. The militant suffragettes were suspected of arson but there was no proof of this.

The latest fire was evidently incendiary, for the firemen discovered it had been started simultaneously in several parts of the building.

Earlier in the night a fire had been started in some cars loaded with straw in another yard apparently to divert attention from the principal scene of operations of the incendiaries.

Get The Syrup Habit—It's Good For You

Velva Syrup is more than a mere sweet. It's a fine, wholesome, healthful food. It's just what growing children need—and it's good for grown-ups, too. Earnest, *careful* scientists have long ago exploded the mossy idea that sweets are harmful—and they tell you that sweets are *necessary*. You'll find

Velva

the syrup with the RED LABEL, *fine*. It has the smoothest of sugary flavor and rich color. It makes candies, fudge, cakes and cookies that just melt in one's mouth. It goes great with griddle cakes and it will make your good muffins, waffles and biscuits *better*. Try it and see if this isn't so. Ten cents and up, according to size. Velva in the green can, too, at your grocer's. Send for the book of Velva recipes. No charge.

PENICK & FORD, Ltd.

VELVA NUT ICE CREAM

3-4 cupful Red Velva Syrup, 2 cupfuls scalded milk, 1 tablespoonful flour, 1-4 cupful sugar, 1 egg, pinch of salt, 2 quarts cream, 1 cupful chopped English walnut meats, 1 teaspoonful almond extract, 1 teaspoonful rose extract.

Beat up the egg with the flour and sugar, and gradually add the milk. Cook for 20 minutes in a double boiler, stirring constantly. Cool and add the syrup, salt, nuts, cream and the extracts, and freeze. Serve in dainty dishes with a preserved cherry on top of each.

HOW $20,000 WAS OFFERED TO EVERYONE

Miss Lillian Russell writes

The best homes in England have for years used an article from a recipe called Waw-Waw, which was prepared for a young English banker who had suffered with indigestion for years, by the suggestion of a noted French doctor, and $20,000 was offered to any one in England who could analyze the Waw-Waw correctly. Waw-Waw (an obsolete South American Indian word for vegetable) contains no raw spices, drugs or coloring matter and is absolutely pure. It is a sauce unlike all others, but in flavor resembles a Worcestershire, but the ingredients contained are quite different and when added to the cooking or with soups, salads, hot and cold meats and fish it gives a flavor unequalled, and at the same time notice how easily your food is digested. The great cooks in Europe pronounced Waw-Waw unexcelled. So great has been the success of Waw-Waw that it is to be found in all parts of the world. A 25-cent bottle from your grocer will convince you how much more you will enjoy your food and how easily anything can be digested. Miss Lillian Russell, the beautiful actress, writes: "Waw-Wah is delicious. Added to soups, salads, meats and fish it is unequalled."

Mother's Advice To Her Daughter

A Real Live Doll to Fondle is Woman's Greatest Happiness.

She is wisdom itself who knows of or learns of that famous remedy, Mother's Friend. It is an external application for the abdominal muscles and breasts. It has a wonderful influence, and with all fear, banishes all pain, is a grateful encomfort and comfort to the expectant mother, and permits her to go through the period happy in mind, destined to bring forth a genius, happiness as nature intended she should.

The action of Mother's Friend makes the muscles pliant and receptive to expansion. Thus all strain and tension upon the nerves and ligaments is avoided, and, in place of a period of discomfort and consequent dread it is a season of calm repose and joyful expectation.

There is no nausea, no morning sickness, no nervous twitching, none of that constant strain known to so many women.

This splendid remedy can be had of any drug, ist at $1.00 a bottle. Write to Bradfield Regulator Co., 222 Lamar Bldg., Atlanta, Ga., for their book to expectant mothers.

Greetings to New China.

In formally recognizing the Chinese republic, the United States has simply consummated a purpose which became manifest in the outset of the Wilson administration and which had already produced its moral effect. Our State department has evidently been only awaiting the complete organization of China's new government. That having been accomplished through the national legislature at Pekin, there remained no occasion for further delay in officially welcoming the young republic into the family of nations.

There is reason to believe that this seasonable example on the part of the United States will influence other world Powers to follow our lead. Certain it is that the republic is the only established government in China. It is through the officials of the republic that all diplomatic business must be transacted. The Manchu regime is dead and done for and the new political order stands unchallenged. Hence, matter of pratical necessity, if for no other consideration, the republic must soon be recognized by all the Powers.

It is gratifying, and we believe will prove fortunate, that the United States has graciously led the way in according the new China its due acknowledgement and courtesy. Our government has always been the stanch friend of this great Oriental people. It was our high-minded and plain-spoken diplomacy that saved the Chinese empire from being dismembered by European greed. It is from our constitution and our ideals that the Chinese statesmen of this new era have drawn their model and inspiration. It is, therefore, very appropriate that the United States should be the first among nations to recognize the republic and to bid its patriots godspeed in their brave and splendid endeavor.

California evidently wants the whole field of champagne industry to herself.

The queer Mexican names are again giving the telegraph operators trouble.

Montenegro's Shrewdness.

The European outbreak which, it was feared, might follow Montenegro's refusal to evacuate Scutari has thus far failed to materialize. Indeed, conditions seem more reassuring than for many days past, despite the fact that the doughty little mountain kingdom still clings to its booty and that Austria is still firm in its demand.

It was reported in London yesterday that the conference of ambassadors expected soon to evolve a plan whereby the interests of Montenegro and the dignity of the Powers would both be maintained. At the same time, there were indications of renewed business confidence in Berlin and Vienna. "A stormy general rise took place in most securities," say the dispatches from that quarter, "and none of the uncertainty or depression of the preceding day was shown." It is thus evident that some practical settlement of the pending differences is expected; and there is a hint as to what the terms of settlement will be.

Montenegro has stoutly withstood all the threats of the Powers, but it is believed that she would not turn a deaf ear to offers of compensation for giving up the captured territory. It is on such a plan that the diplomats are now evidently working. This may explain in a large measure the persistence and audacity of the tiny nation.

King Nicholas knows that if the Powers should move forcefully against him he would be compelled to retire from Scutari, and that if Austria alone should launch an actual campaign against him, resistance would be futile. But he also knows that the Powers are particularly anxious at this stage of Balkan affairs to avoid any belligerent measures. He calculates shrewdly enough that by adhering to his bold plan, he will force from the interested governments some sort of compensation for doing peacefully what they could compel him to do, if they so decided. That is probably all he has expected from the outset and that doubtless is what he will get.

The busier a man is the less time he has to complain of overwork.

We've recognized China, even if we shall find it difficult to recognize the Chinese language.

"Atlanta banks to pay us $10,000 a year." No, that isn't right. "Atlanta banks to pay U. S. $10,000 a year."

The Truth of the Ollie Taylor Case.

It is fortunate for every one interested that Miss Julia Lathrop, chief of the children's bureau in the United States Department of Labor, has made a personal investigation of the widely exaggerated Ollie Taylor case and filed an official report of the facts, as she fond them. There has never been the slightest warrant for the sensational stories that seem to have drifted throughout the country concerning this Georgia lad. The rumors that he was given a long and cruel prison sentence for the childish theft of a five-cent bottle of soda water had no grounds whatsoever. Yet, it is evident that many well disposed persons, particularly in distant States, have been misguided into imagining that through a legal technicality a grave wrong upon justice and humanity had been committed.

Miss Lathrop's report, based on an official and exhaustive inquiry, should forever set at rest all such erroneous opinions. She came to Atlanta, sifted all the evidence in the case, visited the reformatory, or industrial school, to which the boy was committed, talked with him himself and then on her return to Washington issued an interesting statement which concludes as follows:

"While, according to the words of the statute, the child was sentenced, the actual fact seems to be that he was committed to the guardianship of the school during minority, as children are committed in the juvenile courts of other states to quasi-public industrial schools or the state schools for a period not longer than minority, to be placed out or discharged at the discretion of the superintendent or trustees of the schools.

"While in Atlanta, I visited this school and met the superintendent, who has been a professional teacher all his life. He seems to have the boys' interests sincerely at heart, and inquiry showed that he has the general confidence of the community.

"I saw the boys as they were marching out of the dining room on Sunday, dressed in their gray Sunday uniforms. The atmosphere of the place was that of a school, some of the boys I spoke with, among them the child in question. He was a bright, cheerful-looking lad of about 13. All the information gained personally in Atlanta from my own observation and from people with whom I spoke about the matter, convinced me that the boy is receiving proper care."

If there is one community above all others where the courts deal mercifully and sympathetically with offending children, it is Georgia and Fulton county. The very temper of our people would not suffer any other condition to exist. The institution in which Ollie Taylor is now being sheltered and trained to useful citizenship is in many respects a model for the entire nation. The juvenile court system that was established in Fulton county some years ago is being splendidly administered and is yielding results for which the community may well be grateful and proud. Miss Lathrop's clear-out and thoroughgoing report should suffice to remove any and all false impressions.

Bringing Settlers to Georgia.

It has been evident for several years past that the tide of American emigration which once flowed into Canada is turning steadily Southward. Settlers who formerly sought new lands and new opportunities in the far northwest or across the Dominion border are coming to realize the South affords them far richer advantages.

Even before there was any organized effort on the part of the South to attract new settlers, this movement was fairly under way and now that alert cities and States are advertising their resources and are making special appeals to the homeseeker, it has become more pronounced than ever. The trend of investment and population is in this direction. The important matter for each Southern community to consider is how speedily and how largely it will enjoy its due share of this inflow of people and capital.

The railroads of Georgia have been doing good work in this connection. They have given wide publicity to the State's agricultural resources and have devised special rates and plans whereby prospective settlers can visit the commonwealth. The results of this enterprise are already apparent. Hundreds of thrifty farmers from the west are visiting Georgia each season and many of them, with their families, remain.

It is important, however, that the individual counties which desire settlers co-operate with the railroads and with other responsible agencies. Ware county has set a timely example in this connection. A number of its alert citizens are promoting a company for the purpose of developing the necessary lands for a colonization plan. Such work will utilize much soil that is now comparatively idle and will tend to the upbuilding of all the county's interests.

Anyway, the sign of old age is never a forgery.

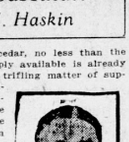
Cedar and Its Substitutes

By Frederic J. Haskin



The continued scarcity of cedar, no less than the actual knowledge that the supply available is already insufficient for the apparently trifling matter of supplying lead pencils to the children of the next decade, is giving some uneasiness to the minds of those who find the lead pencil an instrument in daily use. Some ten years ago a woman in Philadelphia was foresighted enough to invent a paper pencil which had the added advantage of being sharpened by merely unwinding a strip of paper, but although millions of paper pencils have been sold and the invention brought a goodly fortune to the inventor, the demand for the wooden pencil still predominates and the manufacturers are being hard pressed to meet it.

• • •

Only one variety of cedar is available for the manufacture of lead pencils. This is the red cedar, known also as the Virginia cedar or Juniper berry. Its range extends only from the Ohio river on the north, as far east as eastern Tennessee and central Georgia, as far south as Tampa bay on the west coast of Florida, and as far west as eastern Texas and western Arkansas. Nearly 250,000,000 lead pencils are manufactured in the United States each year and these require about 110,000 tons of cedar wood. Each day 300 tons, or about 20,000 cubic feet, of wood is used in the manufacture of lead pencils. Practically all of this wood must be of a selected stock of red cedar which is harder to obtain each year. More than a century ago the pencil makers in this country began to use this wood, taking no thought of the possibility of the supply becoming exhausted. The German government, with its customary prudence, took measures for replanting its cedar stock, and Germany is now become independent of imports and is even able to supply a certain amount of red cedar to the pencil factories of other European countries.

• • •

In America no such precautions have been taken and the pencil factories are now glad to buy even small quantities of old red cedar, paying for it at the rate of a cent or more a pound, or 40 cents a cubic foot. The price is likely to double in the near future. As it is necessary that pencil cedar be well seasoned, its age is an advantage, providing it is in good condition. Consequently, it is not unusual to see an old darkey dragging an old fence rail or a piece of timber out of some old building, towards one of the pencil factories which are scattered over various southern states. He knows the factory will buy it at a price sufficient to keep him in tobacco for many a day. Even a single cubic foot of good, well seasoned red cedar will not be refused by some factories.

• • •

Fully three-fourths of the cedar wood purchased by the pencil factories cannot be used for pencils, but has to go into the waste heap or be used up as some by-product. Only the heart wood is good for lead pencils. The outside or sap wood is sometimes utilized for pen holders. Pencil wood must be straight grained and free from knots and black specks. Before the wood became so scarce, the sap wood was allowed to rot by keeping the logs in water. This process tended to make the heart wood brittle and soft, good qualities for the pencil maker.

• • •

The search for cedar has spread throughout all the southern states, and has been most thorough. As late as 1900 nearly 2,000,000 feet of good red cedar timber were rafted down the Cumberland river from the vicinity of Lebanon, Tenn. It is said by experts that another such lot is not likely to be secured in this country within the next half century. The virgin cedar stands have all been exhausted, and old cuttings have been gone over repeatedly. Logs and trees which were passed by a few years ago are eagerly taken now. Old stumps are cut up and good pencil wood secured from them. Barns and cabins built of cedar many years ago are not escaping the searchers who buy this wood in large quantities. Fence rails and pickets are also taken. Sometimes the pencil men will secure old cedar rail fences by building modern woven wire fences in their places.

• • •

The pencil industry is not the only one which is being embarassed by this exhaustion of the supply of red cedar, which the United States department of forestry claims could have been prevented if this government had taken the same precautions as did that of Germany. The manufacturers of cigar boxes have had to substitute another wood because it has become impossible for them to secure cedar. In the minds of some smokers this fact is responsible for the deterioration in the flavor of a number of brands of cigars. Instead of being packed in a box of fragrant red cedar, most cigars are now put up in boxes made of poplar or some other soft wood and are covered and lined with a thin veneer of Spanish cedar which is imported from Cuba for that purpose.

• • •

In the colonial days in this country red cedar was used for many varieties of household wares. Well buckets were made of red cedar more frequently than from any other wood. At the St. Louis World's fair was exhibited a red cedar bucket with brass hoops which was made in Tennessee in 1747. Its wood was still sound, although it had been in active use more than a century. Few cedar buckets are to be found now. Incidentally it may be mentioned that the use of paper as a material for manufacturing water buckets has been more satisfactory than for lead pencils and the paper or fibroid water buckets are to be found in large variety in every house furnishing store.

• • •

Coffins of red cedar were used extensively in the southern states half a century ago, and frequently they were placed in boxes of the same material. It has been rumored that old graveyards have been rifled by the pencil wood seekers. This report has been denied rather indignantly by the manufacturers who claim that aside from other reasons, wood which had been buried for so many years in board thickness could not be perfect enough to be available for pencils as, notwithstanding its durability, cedar will decay under such conditions.

Short Cuts

I.—JOY OF FOLLY.

They say, oh, winsome queen of hearts,
To whom I've played full many parts,
That I, when weeping skies shall rule,
To you shall play the April fool.

They say the smiles you dole to me
Are but of soft cajolery;
That I'm a very fool indeed
To jest and get so small a meed.

They say—but let them say their say!
This way or that—what difference, pray?
Rather than wise away from you,
I'll play your fool the whole year through!

II.—NOT CATALOGUED.

Some people seem to be afraid
To spend their cash at home;
They send away for all they use,
From engine down to comb.

They boast the house they patronize
Can sell you anything;
Just try them on your phonograph
Or new false teeth, by jing!

Or else a hair cut and a shave—
All these will far their pins;
But if you want to stump the bunch
Sit down and order twins!

BOY WANTED

BY DR. FRANK CRANE.

(Copyright, 1913, by Frank Crane.)

Wanted—A boy that stands straight, sits straight, acts straight, and talks straight;

A boy whose finger nails are not in mourning, whose ears are clean, whose shoes are polished, whose clothes are brushed, whose hair is combed, and whose teeth are well cared for;

A boy who listens carefully when he is spoken to, who asks questions when he does not understand, and does not ask questions about things that are none of his business;

A boy that move quickly and makes as little noise about it as possible;

A boy who whistles in the street, but does not whistle where he ought to keep still;

A boy who looks cheerful, has a ready smile for everybody, and never sulks;

A boy who is polite to every man and respectful to every woman and girl;

A boy who does not smoke cigarettes and has no desire to learn how;

A boy who is more eager to know how to speak good English than to talk slang;

A boy that never bullies other boys nor allows other boys to bully him;

A boy who, when he does not know a thing, says, "I don't know" and when he has made a mistake says, "I'm sorry," and when he is asked to do a thing says, "I'll try";

A boy who looks you right in the eye and tells the truth every time;

A boy who is eager to read good books;

A boy who would rather put in his spare time at the Y. M. C. A. gymnasium than to gamble for pennies in a back room;

A boy who does not want to be "smart" nor in any wise to attract attention;

A boy who would rather lose his job or be expelled from school than to tell a lie or be a cad;

A boy whom other boys like;

A boy who is at ease in the company of girls;

A boy who is not sorry for himself, and not forever thinking and talking about himself;

A boy who is friendly with his mother, and more intimate with her than any one else;

A boy who makes you feel good when he is around;

A boy who is not goody-goody, a prig, or a little Pharisee, but just healthy, happy and full of life.

This boy is wanted everywhere. The family wants him, the school wants him, the office wants him, the boys want him, the girls want him, all creation wants him.

Captain Barnacle's Travelogues

BY JOHN H. WISHAR

"I never see a Holland Dutchman without feeling grateful to the Dutch race in general," remarked Captain Barnacle, spying an Amsterdam merchant on the wharf. "It was the Dutch, or rather their wooden shoes, that saved me from Davey Jones' locker. These same shoes also gave corns to half the natives in Borneo, and I made a fortune with my patent corn cure—but that's a different story.

"The wooden shoes are associated with the last voyage of the steamer Gough of Holland. This vessel was loaded with wooden shoes. The shoes were taken aboard in Java, where it had become a great industry to manufacture the shoes and ship them back to Holland. At that time I was master, and this was the first steamer I had commanded. Just as luck would have it, we ran into the tail of a simoon two weeks out, and the old steamer started to fill. When the water struck the hot boilers there was an explosion that scattered her ribs over several square acres of the Pacific ocean. We all landed in the water, but luckily no one was killed. The storm had gone down and the sea was also peaceful.

"I was swimming for all I was worth when all around me came a rain of wooden shoes. They had been blown way up in the air, and scattered in all directions. I hailed the sight with delight. They all floated beautifully, and calling the sailors to grab as many as possible, we tied them together with our clothes. There must have been about a million of these wooden shoes, and we collected nearly all of them. We piled them up into a great raft, and as we were in the Borneo current we knew we'd soon be washed ashore. It rained and the rain was caught in the wooden shoes. This gave us drinking water. Then we would drop a shoe over the side and small fish would swim in. So we had plenty to eat. Well, sir, on the fifteenth day after the wreck we sighted the Borneo coast and the next morning were ashore. The natives came down to the beach by the hundreds. Then I got an idea. I slipped on a pair of wooden shoes and walked around. After that the natives were wild for a pair each. Then we commenced to sell 'em. And, sir, we collected dye woods, food, skins, feather coats, and some pearls, enough to load a small schooner which came two days later. We left the natives hobbling about in their wooden shoes, and we sailed away with a fortune. That's why I feel kindly toward the Hollanders."

City Universities

(The Independent.)

We have state universities, and we are beginning to have city universities. Among our cities which have successfully conducted such universities or colleges are New York and Cincinnati.

The city university is a new institution abroad as well as in this country. In England, such are the universities of London, Birmingham, Liverpool, Manchester, Leeds and five others, and such are the new German universities at Hamburg and Frankfort. The University of Leipzig is municipal and old. Our larger cities have universities already established by private benefaction within their own limits or close at hand, so that all that is needed to make them municipal is for the city to make an annual grant to the amount for the tuition of students living within their limits. Why should not Boston or New Haven or Chicago or Philadelphia pay the tuition of students at universities near at hand?

The Trees of Paris

(Chicago Tribune.)

When the Parisian work of the planting on a great scale was begun under the reign of the ill-fated third Napoleon, holes five feet in depth were dug in the parkways along the streets. They showed that the soil conditions were not favorable to tree growth. It was sandy and pebbly and at the depth of five feet an impenetrable layer of hard clay was encountered.

But Paris was determined to have trees. A trench ten feet in length was dug about the site of each new tree and filled with rich, black dirt. Then in the municipal nurseries the young trees were pruned and trained to grow their roots horizontally instead of straight down, so that they might get the needed nourishment from the layer of rich dirt provided. As a consequence of that good start and of the continuing care which is exercised, the trees of Paris are perhaps the finest in the world and their average life is nearly forty years.

THE RAG OF THE ANCIENT MARINER.

BY TAPESTRY, THE COLERIDGE OF THE CABARETS

Water here, water there,
Water, water everywhere;
While the boards are shrinking, sinking, I'm a-thinking
That I'd like to be a-drinking, drinking;
But there ain't no drop that I can cop
So I'll have to hop and flop till they stop
That Ancient, Ancient, Ancient Mariner Rag.

CHORUS.

See them slimy, grimy crawlers
Ragging, dragging, jaggety-jaging
Over the slimy sea, oh gee!
Mark that time, kid;
Through the slime, kid,
Rag it along with me:
When the witch's oil begins to boil
Oh, come and coil beside me, goil,
While we do that Ancient, Ancient Mariner Rahag.

THE DIARY OF OUR OWN SAMUEL PEPYS.

April 28.—With Fred. Kelly the scrivener and his friend Mr. Carmichael and W. Banning to luncheon, and R. Werrenrath the barytone, too, and much discourse of many things, and W. Banning told us many tayles of the strange towns he hath been in. Also he gave us a story in pidgin English, very comickal, and in correct dialect, too, which one seldom hears. Matching with coynes for the honour of paying the reckoning, it fell to F. Kelly, and he took it with a good grace. Thence to the ballpark, but find there is no game to be played, what with the wetness of the field, albeit I did think it was dry enough. To the great station to meet my wife, who hath returned from Peh's Woods, and so home on an omnibus with her. All the evening at scribbling, and so to-bed.

Among the Twenty-Five Thousand Children of Atlanta's Schooldom

EDITED BY
LEWIS P. ROSSER, JR.,
B. H. S. '13.

GRAMMAR SCHOOL FIELD DAY BETTER THAN EVER, SAYS DOCTOR TOEPEL

May 10 has been selected as the date for the annual field day exercises of the grammar schools of Atlanta, according to Dr. Toepel. Last year the affair was a huge success and promises to be better in every respect this time. The program consists of athletic contests for the boys and girls in the morning, and drills in the afternoon. There are running for the younger children at this time also.

The official program for the day, as announced by Dr. Toepel, is as follows:

MORNING.

For Boys—Running high jump, standing broad jump, pull up, hundred-yard dash.

For Girls—Running high jump, standing broad jump, throwing basket ball, hundred-yard dash.

As prizes for these events, the usual gold, silver and bronze buttons will be offered.

AFTERNOON.

Running races for the children of first, second, third and fourth grades. Two from each class, eight from each school will enter, and the winners will be given red, white and blue ribbons.

Butterfly rounded, by all the fourth grades of the city. This is an aesthetic exercise in which both the boys and girls of the fourth grades will take part.

American Flag drill, by all the sixth grades and some of the seventh. About eleven hundred children will take part in this beautiful exercise, the like of which has never before been attempted in the city. The girls will be dressed in red and blue and the boys in white. After forming on the field, the lines will come together and form an American flag in all its details, the girls in red and blue representing the stars and stripes and the boys in white as the white stripes. Each child who takes part will carry two small flags, and the effect produced will be very striking. The Confederate veteran have been asked to take part and have responded with enthusiasm. After this drill the national songs will be sung and then comes the delivery of the prizes.

The affair will be in charge of Dr. Toepel and Miss Myra Graves, the assistant physical director of the schools. Four boys from the Boys' High school have been asked to act as judges.

PRYOR STREET

Our Walter Rich Improvement club met last Friday. The main feature was a talk on consumption or the great white plague that is devastating our country, with ways of prevention, etc. We certainly gave Mr. Sage our most sincere thanks. After this instructive talk a few matters of interest were discussed and decided upon. Our baseball nine has been playing fine of late. In the last two games with Crew and Fraser, we won 9 to 5 and 15 to 12. The game with Fraser was particularly exciting, in the first of the seventh inning the score was 11 to 6 and our team was in despondency. But presto! we had awakened and our spirit was up till the score was 15 to 12 in our favor. We occupy third place now and we hope to come second so we can play at Ponce de Leon with the second team on the north side.

We hope the city council will not pass the bill to give each school $50 to install "penny lunches," for we do not like them. We want books. Our library already contains a large number of volumes, but we want more. If the bill is passed we hope we can use our room to enlarge our library. "Penny lunches" may be successful in some parts of the city but we believe that our mothers know better than anybody else what is good for us and will make us live long and happily.

We have heard from many sources that our boys marched better than those of any other school in the parade on Memorial day. We are very proud of this most acceptable fact. Cadet Jones was our commander-in-chief and our three lieutenants were William Steele, Jr., Clyde Kimball and Bertram Kirkland, all of which commanded the matchless military skill. The other officers were discussed in last week's bulletin from Pryor.

CHARLES EARLE DEAN.

LEE STREET

We are very proud of the boys from Lee Street school that marched in the parade and hope that every one who saw them thought they looked as nice as we did. I know all of the girls think they looked very well, and I am sure as to get out at 1 o'clock as the boys did Monday.

Miss Harralson has selected our seventh grade as one of the few grades to sing in the concert at the auditorium on May 9.

Second grade B has about twenty potted plants in their windows. Four geraniums and several other kinds of plants are blooming, which they have anxiously awaited for all of the winter.

The fifth and sixth grades have been practicing hard for the flag drill which they will be in on Field day. Miss Zobel has complimented them greatly. They are very proud of the fact that they have been chosen to form the blue in the flag. They are working very hard to have every part of it just right.

Miss Beck, one of the drawing directors, paid us a pleasant visit one day last week. Her report was very satisfactory.

The girls of the fifth grade will have a debate Friday. The subject will be "Resolved, That electricity is more useful than steam." The debaters will be Genevieve Calhoun, Frances Alman, Marie Roberts and Marguerite Eberhart.

The primary grades enjoyed a visit from Miss Milledge recently. The second B and fourth B received "very good." The first A "very good plus" and the two third grades "excellent." This is the fourth time this year third A has received "excellent."

VIRGINIA COLLIER.

INMAN PARK.

At the meeting of the Parent-Teachers' association at this school last Friday Dr. Claud Smith, the city bacteriologist, lectured on the diseases caused by the fly and mosquito. Some fly charts have been placed in our school and they are being watched by the children with great interest.

The children of the fifth and sixth have been practicing and are now ready for the Field day exercises.

In the memorial parade we had but three platoons, but each boy seemed to believe that the reputation of the school rested upon him and acted accordingly. Our boys were the first to reach the cemetery.

The boys who were in the paarde felt more than compensated when Mrs. Johnson read them the letter of thanks from Superintendent Slaton.

The children of the sixth grade were glad to have Harry Smith return to school Monday, after a serious accident to his eyes.

A committee, of which Laura Lee Pennington, Elizabeth Wilson and Roberts Browne are members, has been appointed to arrange a program for the closing day exercises.

AGNES SCOTT GIRLS PRESENT BEAUTIFUL MAY DAY PAGEANT

On last Thursday afternoon the first of May, the students of Agnes Scott college enjoyed a real May festival. The students had been looking forward to the occasion for weeks and several days ago chose Miss Ethel McKay, of Macon, Ga., queen of the May. Her maids were Misses Theodosia Cobbs, Ray Harrison, Isabel Norwood and Nenuzza Leymour.

About 5 o'clock in the afternoon a long procession consisting of the queen and her maids, and representatives of all the classes in costume was formed on the colonade of Rebekah Scott Hall. There were peasants, Irish folk, milkmaids and folk dances with Robin Hood and his band and maids.

The long line marched across the campus to the queen's throne, before which stood the Maypole, gay with its many colored ribbons, around which gathered the queen's followers to witness her coronation. Then all joined in the dancing, a beautiful folk-dance being given first by the peasant girls. This was followed by an attractive dance, given by the students of the academy, representing Norwegian peasants, while Robin Hood and his band distinguished themselves by a skilful rendering of the Morris dance. And finally came the dance around the may pole. The dancers all represented hours, and formed a truly beautiful sight, as they wove the long, bright streamers around the pole. The girls were all attired in beautiful and appropriate costumes, and seemed to embody the very spirit of May as they joined in the happy festival. The event was one long to be remembered, a truly beautiful, festive and joyful occasion and one of the most thoroughly enjoyable features of the whole college year.

There were many visitors present, and after the celebration a delicious supper was served in the campus. The proceeds of the entertainment were for the Y. W. C. A., which has done so much in thus inaugurating at Agnes Scott the observance of this most beautiful and time-honored custom—the celebrating of May day.

SENIORS AT BOYS' HIGH GIVEN HOLIDAYS ON FRIDAY AND MONDAY

The final examination in college algebra comes to the senior class of Boys' High tomorrow, and since there are only two who have not made the required 75 per cent to be exempt, the majority will have the privilege of a holiday. The building was also used to conduct the examinations for public school teachers on Friday and the whole school was released from the routine of studies.

The speakers for the graduating exercises will be selected the subjects of their orations, and are hard at work. Bascomb H. Torrance is the valedictorian, and his efforts will produce his usual polished and forceful speech. Manning and Lowenthal are the other two from the classical department, while Eplan and Stanfel will represent the business section.

It was thought at the first of the year that the seniors this year would set a precedent by graduating in full dress, but this has been found impractical on account of the unwillingness of several of the small boys. Arrangements have been made for the affair to be held in the Grand opera house, instead of the Atlanta, as it was first thought.

FORMWALT STREET

Our hearts swelled with pride on Saturday when he saw our boys pass by on the Memorial day parade. They were there seventy strong, and under the leadership of our captain, William Morgan, and our lieutenants, Robert Smith, Willie Johnson, Dan Dozier, Ralph Wallace and Ernest Greene, they marched like veterans. They were arrayed in all their glory and with their purple and pink ribbons, uniforms and hat bands and streamers flying they they made a splendid showing.

Our color bearers, Smith Tye, Marshal Morgan and Edward Merritt, did their share toward making our representation a success. Last, but not least, we must give full credit to our drummer boys. Our drum corps was composed of Frank Ruskin, Hyman Cohen, Leonard Trawler, Phillip Schoenecker and Hugh Prater. If they had not furnished such splendid music Formwalt would not have been which steady step.

Our baseball team added another victory to their list Thursday before last by defeating Peeples, 10 to 5.

On last Tuesday Gran park went down in defeat before our team to the tune of 14 to 3. The two home runs knocked by our manager, William Morgan, were among the events of the game. With only three more games to play and having won every one so far, Formwalt feels sure of the south side championship.

Dr. Toepel visited us last Tuesday and was very much pleased with the work in the sixth and fourth grades.

On Tuesday Dr. Claud Smith was with us and talked to us on the subject of the house fly. This talk was very interesting and we were very glad to have him speak.

The eighth grade is working hard on the music for the concert and we are sure it will prove a big success. Miss Haralson came to see us last week and told us she would have to give us excel'ent again for the good work we were doing in music.

On Friday night, April 25, Miss Mae Hardin entertained the Formwalt baseball team at her home in Inman Park. The Formwalt colors, pink and purple, were carried out in the beautiful decorations of the table, the dainty candies, the delicious cakes with their chocolate F, the refreshing rose tinted block cream with the F most conspicuous when cut, all this brought out the loyal colors of Formwalt. In the game of baseball Hays Hawkins was the fortunate winner of the coveted prize, a beautiful catcher's glove. Nell Pouche won the lovely lace boudoir cap which was most becoming.

FANNIE GOLDIN.

ATLANTA SELECT

With only the remaining month of May to be completed our school is progressing smoothly and indications are that the classes will finish their work assigned them on schedule time.

Prof. Richardson has been busily engaged in making out the monthly reports and the boys are anxious to see them.

The Phi Gamma Literary and Debating society postponed its regular meeting on last Friday so as to complete the examination in mathematics.

At last our baseball team has loomed into shape, and we are ready to battle with any team between the ages of fourteen and sixteen.

Any team that would like to have a game with the "Atlanta Select" team, will please call Ivy 2954, between the hours of 8:30 and 1 p. m.

JOHN B. RANSOM.

SPEAK AT GRADUATING EXERCISES

Left to Right—Top: Roy Manning, Bascomb Torrance. Below: Ernest Lowenthal. These are three boys from the classical section of the Boys' High school, who will deliver speeches at the Grand on the night of June 6. Torrance is the valedictorian.

FORREST AVE. SCHOOL.

On last Thursday a most beautiful program was rendered by the pupils of the first grade, celebrating May day.

On the previous day the pupils made the beautiful May baskets which they filled with gorgeous flowers of every description on the morning of the entertainment. The pupils marched into their class room with baskets overloaded with flowers. On each little head was a flower wreath, and all were dressed in white.

Upon entering their room they sang several sweet and appropriate songs. The most interesting event was when the little girls sang their doll song, and also explained how they rocked them to sleep, scolded them and attended to them in general. The boys' part had a militant caste, and they sang their "Soldier Boy" song with flags waving and drums beating, much to the delight of the roomful of guests. After a few more songs they adjourned to the auditorium for the final event which was a pretty drill and a little dance concluded the exercises.

BOUTWELL HUDGINS.

ASHBY STREET

The second grade got a reward for best lines last week.

Nineteen children got the reward for neat copy books in the second grade.

Herbert Manning, Emmet McClendon, Louise Spivey and Roy Sturgus, of the deaf class, have neither been absent nor tardy this week.

The fifth grade got the highest in attendance last week.

After a long sickness, John Barker has come back to the deaf class.

Miss Milledge visited the school Monday and said the work was very good. She gave the second, fourth and fifth grades stars.

STARR AND HARRIS COP DOUBLES IN BOYS' HIGH TENNIS TOURNAMENT

The tennis tournament held at East Lake this week by the Boys' High school came to a close yesterday afternoon, when Homer Starr defeated Rolling Jones for the singles championship of the school. The contest between these two was fast and close, standing in two sets and games until yesterday, when Starr succeeded in downing his opponent in the final set. In the doubles which were played off Wednesday, Starr and Harris came off victors, having little trouble in downing all except the team composed of Hoyt and Bedinger, two seniors, who gave the winners much trouble before the affair was brought to a close.

Harris is the youngster who gave Harry Hallman, the champion of last year, and winner of the prep honors, such a tight race in the singles. Starr is a new man in the game, but has won honors in football and basketball this term, and gives promise of big things before he leaves.

Baseball in the Grammar Schools

On the south side the Formwalt team seems to be making a clean sweep, and is on a fair way to bring another pennant to the halls of that peerless winning school. They succeeded in copping from the Grant Park bunch on Friday by a large score, and the latter team is considered to be a strong contender for the rag. Crew also had little trouble in running away with the Georgia Avenue nine.

On the south side, the Boulevard-Luckie contest was won by a large count, the former coming off as victors.

BOYS' HIGH WILL NOT ENTER TEAM IN PREP TRACK MEET ON MAY 9

It has been announced by the management of the track team of the Boys' High school that the school will not be represented in the interprep track meet which is to be held at Tech Flats on Friday, May 10. The boys on the team feel that the work that they did in winning the recent meet with Tech High is not sufficiently appreciated. Then, too, a trip has been arranged with a five-man team at Riverside on May 17, and these two coming so close together would be more than they could stand. The squad has some good material in Lochridge, Lopez, Holtzendorff, Neal, Newman and Schane, and would have a better chance of copping in the prep meet this year than ever before. It will undoubtedly be a great disappointment to the school in general as well as the men on the team if the high school team does not enter.

PEEPLES STREET SCHOOL.

Now that Memorial day is over, and only five more weeks of school remain until vacation comes again, we have settled down to a few weeks of good, hard study, interrupted only by the constant practice for the Field day exercises. The fine weather we have enjoyed lately has brought up the attendence record. Very good averages were made by all the classes last week, and the fifth grade B made 100 per cent.

The picture offered in the third grade for the best work in spelling went to Josephine Henderson last week.

The Junior Civic club meeting was postponed from last Friday, as one of the debaters was absent. It will be held this Friday. The subject for debate will be, "Resolved, That public schools are preferable to private schools."

The children of the second grade B all had very good marks on the final examinations. Several of them deserve especial credit for having 100 in all three finals. These are Edwin Hollinsworth, Lois Bolles and Mary White.

The ball game with Crew Street, which was postponed April 18, was played the 23d with a close score of 6 to 5 in our favor. The game was well played, the features of Peeples Street's playing being the two home runs knocked by Warren Pollard and Paul Gunn, and the double play from Burnett to Gunn. A game was also played with Formwalt Friday. Defeats must be told about after victories, but the Peeples Street team put up a stiff fight and "died hard."

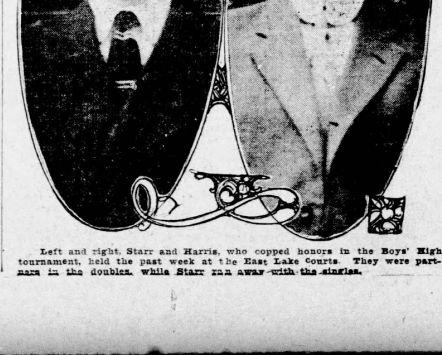
WINNERS IN TENNIS TOURNEY



Left and right Starr and Harris, who copped honors in the Boys' High tournament, held the past week at the East Lake Courts. They were partners in the doubles, while Starr ran away with the singles.

PEACOCK DOWNS TECH HIGH IN A TEN-ROUND FRAY

BY A. C. M'NEAL.

Peacock-Fleet downed the Tech High school aggregation Tuesday afternoon in a lengthy ten-inning battle, the final score being 9 to 8. The game was a hitting festival from start to finish, each team pounding out quite a number of hits. The Fourteenth Street boys showed up better in this game than ever before, a big improvement in every department of the game being evident. With the big stick they clearly outclassed their opponents. One home run, three three-baggers, three two-baggers, and eight singles made up the list that was extracted from Parks. Tech High's star surler; while ten singles went to the credit of the Tech High batsmen. Harlan's home run in the third chapter, with two out and two men on bases, was the most exciting feature of the game.

Harlan, McRae and Carraway did the most important work for Peacock-Fleet, while Thomas and Parks W. worked fine for Tech High. The fielding of the two teams was fairly good.

The score by innings is as follows.

	R.	H.
P. F. S.	001 021 000 2..9	14
T. H. S.	102 013 000 1..8	10

Batteries: Sams, Wells and Harlan; Parks J. and Hair. Struck out: by Sams 2, by Wells 5, by Parks 4. Base on balls: off Sams 1, off Wells 1, off Parks 3. Umpires, Hardin and Culver.

The first round in singles and in doubles in the team's tournament in Peacock-Fleet was played off this week and the best part of the tourney is now ready to be played off at East Lake next week. The unusually large number of entrants required quite a long time to settle all the matches of the first round, but the remainder of the tournament will now be completed in a few days.

The double-header between P. F. S. and Athens High School that was scheduled to be played here this afternoon was called off late yesterday owing to a disagreement between the teams.

LITTLE STORIES FOR BEDTIME

BY TWORTON W. BURGESS.

Ever since Farmer Brown's boy and Reddy Fox had found his new house in the old apple tree of the old orchard Johnny Chuck had been worried. It was not that he was afraid for himself. Oh, my, no. Johnny Chuck felt perfectly able to take care of himself. But there was Polly Chuck. He was terribly afraid that something might happen to Polly Chuck. Polly was not half big and strong like him and then Polly Chuck was apt to be careless. So for a while Johnny Chuck worried a great deal.

But Reddy Fox didn't come again in daytime. You see, Bowser the hound had given him such a scare that he didn't dare to. But sometimes came at night and sniffed hungrily at Johnny Chuck's doorway, but Johnny and Polly were safe inside and this didn't trouble them a bit. And farmer Brown's boy seemed to have forgotten all about the new house. So after a while Johnny Chuck stopped worrying so much. The fact is Johnny Chuck had something else to think about. He had a secret. Yes, sir, Johnny Chuck had a secret.

Sammy Jay came up to the old orchard almost every morning. His sharp eyes were not long in finding out that Johnny Chuck had a secretfi, but try as he would he could not find out what that secret was. Whatever it was it made Johnny Chrck very happy. He would come out on his doorstep and laugh and sometimes give a funny little whistle of pure joy. It puzzled Sammy Jay a great deal. He couldn't see why Johnny Chuck should be any happier than he was. To be sure he was a happy time of year. Everybody was happy, for it was spring time and the Green Forest and the Green Meadows, even the Old Pasture, were very lovely. But somehow Sammy Jay felt sure that it was something more than this, a secret. Johnny Chuck was keeping all to himself, that was making him so happy. But what it was Sammy Jay couldn't imagine. He spent so much time thinking about it and wondering what it could be that it actually kept him out of mischief.

One morning Johnny Chuck came out looking happier than ever. He chuckled and chuckled as only a happy Chuck can. Then he did foolish things. He kicked up his heels. He rolled over and over in the grass. He whistled. He even tried to sing, which is something no Chuck can do or should ever try to do. Then suddenly he scrambled to his feet, carefully brushed his coat and tried to look very dignified. He strutted back and forth in front of his doorway as though he were on parade at night. There was pride in the very way in which he took each step. There was pride in the very way in which he held his head. It was too much for Sammy Jay.

"What are you so proud about, Johnny Chuck?" he demanded in his harsh voice. "If it didn't have a better looking coat than you've got I wouldn't put on airs!" You know Sammy Jay is very proud of his own handsome blue and white coat and dearly loves to show it off.

"It isn't that," said Johnny Chuck.

"Well, if it is because you think yourself so much smarter than you were in the old orchard let me tell you that I found you out long ago, and so did Reddy Fox and Bowser the Hound and Farmer Brown's boy," cried Sammy Jay in the most disagreeable way.

"It isn't that," said Johnny Chuck.

"Well, what is it, then?" snapped Sammy Jay.

"That's for you to find out," replied Johnny Chuck.

There's foolish pride, and silly pride and a better pride of course.

A better pride is honest pride, and that's the pride for me.

And with that Johnny Chuck disappeared in his new house.

ALASKAN PROBE TO CALL IN G. W. PERKINS

(By Associated Press.)

WASHINGTON, May 3.—As a result of testimony before the senate territories committee today, representatives of the Morgan and Guggenheim interests in Alaska will be asked what they know of alleged threats to retard the development of territory.

J. E. Ballane, of Seattle, before the committee today declared George W. Perkins had told him several years ago that the Morgan interests never would permit the development of Alaskan railroads until coal claims there were obtained under government patent.

Members of the committee were grateful interested in Ballane's testimony and declared Mr. Perkins and others interested in the Morgan and Guggenheim companies would be asked to appear.

JAPANESE STUDENTS ABANDON SWORD DANCE

(By Associated Press.)

PHILADELPHIA, Pa., May 3.—Japanese students of the University of Pennsylvania who were to have appeared in a "sword dance" at the central branch of the Young Men's Christian Association last night, declined to give the exhibition "because it might prejudice Americans against their race." They substituted a jiu jitsu exhibition.

"While we are sure that the majority of the audience would understand that the dance is but a portrayal of the customs of our forefathers" said one student, "many might assume that the Japanese nation is still peopled by barbarians. We feel very warmly toward Americans and want to preserve their respect."

WOMEN TAKE PART IN BIG STRIKE RIOTS

(By Associated Press.)

BURLINGTON, N. J., May 3.—Women took a prominent part today in the most serious riot that has yet occurred during the strike of the workers of the several iron mills in Burlington. The women, mostly wives of foreign speaking laborers, with the help of men, overpowered the police and deputy sheriffs, and rescued a patrol wagonload of prisoners.

The police and deputies used their clubs freely on the men but no one was seriously injured.

G. M. A. CADETS PLAN FOR CAMP AT LAKEWOOD

BY ALBERT SELIG.

On Monday morning the G. M. A. cadets will hike to Lakewood for their annual encampment, where they will have much hard work, as well as much pleasure during the week. The camp week is considered by far the best week in the whole school year. Besides sentinel duty, target practice, guard mount, etc. The cadets have a hop every night, which is enjoyed immensely by all present. And then we must not forget to mention the good "old barbecues," as the boys can vouch to the statement that they are "great."

Many guests have been invited for the week, including:

Monday, 4 to 5:30 p. m., mayor and council of College Park.

Monday, 7:15 to 9:45 p. m., College Park and Atlanta young ladies.

Tuesday, 4 to 5:30 p. m., mayor and council of Atlanta.

Tuesday, 7:15 to 9:45 p. m., Washington seminary.

Wednesday, 4 to 5:30 p. m., officers of Seventeenth United States regiment.

Wednesday, 7:15 to 9:45 p. m., Woodberry school and Cox college.

Thursday, 4 to 5:30 p. m., officers Fifth regiment, national guard of Georgia.

Thursday, 7:15 to 9:45 p. m., old G. M. A. boys and Washington seminary.

Friday, 4 to 5:30 p. m., Governor Brown and staff and officers department of gulf.

Friday, 7:15 to 10 p. m., Atlanta Girls' High school and Old Guards and Invincibles.

The speakers chosen for commencement are: Isadore Thornton, L. Parker; senior orators, Selig, Savelle and Towns; junior orator, B. Rodriguez. The sophomore and freshman declaimers are Jessup and Brooke, respectively.

Our track prospects received a serious setback by some of the men being disabled. R. E. Smith, who is looked forward to on the jumps, has been kept busy with baseball and the same can be said of Bob Shoemaker has not been able to throw the hammer on acount of being ill, and Davis has had the tonsilitis for the last week. Hagan, who was showing up splendidly on the pole vault, has a sprained ankle.

LEE'S DAUGHTER VISITS VETERANS OF SAVANNAH

(Special Dispatch to The Journal.)

SAVANNAH, Ga., May 3.—Miss Mary Curtis Lee, the daughter of General Robert E. Lee, who has been in Savannah for several weeks past, left this morning for Charleston, where she is to spend some time visiting before returning to Richmond. Miss Lee has visited some of the Confederate organizations, attending their meetings and showing much interest in what was done. She was elected an honorary member of the children of the Confederacy while here.

SOPHOMORE GIBSON WINS AUBURN PRIZE

(Special Dispatch to The Journal.)

AUBURN, Ala., May 3.—The annual sophomore declamation held on May day of each year was won last night by Cadet Daniel DeKalb Gibson, of Clay county, Ala., whose subject was "Emmet's Protest Against Sentence as a Traitor." Glenn Andrews, Jr., of Montgomery; Cadet Condy Yancey, of Tuskegee, Ala., and William Matthew Garrett, of Lowndes county, Ala., were close competitors for the medal, and received honorable mention.

RECTOR WELLER ACCEPTS CALL TO ANNISTON

(Special Dispatch to The Journal.)

ANNISTON, Ala., May 3.—Rev. John H. Weller, of Atlanta, has accepted the call to become rector of the church of St. Michael and All Angels in this city, and will preach his first sermon next Sunday.

Dr. Weller succeeds the late Dr. J. H. Blackstock, who was the rector at St. Michael's for nearly a score of years. Dr. Blackstock raised considerable money for a church endowment, and this work will be carried forward by the new rector.

It was announced last Saturday that the School Page, beginning with the issue of this week, would appear in the Sunday Magazine. Owing to unforeseen circumstances, however, this has been found impractical, and, unless otherwise specified, will be issued on Saturday, as usual.

Sewanee Plays Tech Jackets---Atlanta Closes With Barons

Hit in Pinch Gave Atlanta Second Game

Bausewein Was Unhittable When the Bingles Counted for Runs—Crackers Now Enjoy the Edge in Series

(Special Dispatch to The Journal.)

BIRMINGHAM, Ala., May 3.—With George Bauswein working to a finish in the pinches and the Crackers hitting Hardgrove when hits meant something more than goose eggs in the tally sheet, the Atlanta club assumed charge of the game yesterday and defeated Birmingham, 2 to 1. There was another something that helped the Crackers, and that was luck, which certainly broke in favor of the Smith clan.

Hardgrove pitched wonderful ball for Birmingham and allowed four hits, Bauswein hurled well for Atlanta and gave up eight. Atlanta won. There you are!

The Barons were not there. They gave Hardgrove rotten, putrid support. Six errors came at the critical points in the game and worked havoc with the score sheet. Until the sixth nobody had scored. In that frame Bauswein's Texas leaguer, Long's rap to third, and Agler's infield scratch, coupled with the bad bounce Alperman's roller to short took, netted the Crackers a run. Welchonce then stung one to McGilvray. Big Fill kicked it a block, and the winning tally for Atlanta walked in.

The Barons scored one in the eighth, when they filled the bases on a pass and two singles with nobody down. Carroll fanned, Ellam sacrificed to right, scoring Bodus, and Mayer whiffed the breeze.

GET LESSONS AT BALL YARD

NEW YORK, May 3.—Baseball as an incentive to the study of arithmetic, which has recently been tried in schools elsewhere, is being tried in the Girls' High school in Brooklyn. Dr. William L. Felter, the principal of the school, intimated to the management of the Brooklyn baseball club that 1,000 girls were to have a class in percentage yesterday, and the club invited them to make a classroom of Ebbetts field.

They did so, and combined the fun of seeing a good ball game with an arithmetical test in figuring percentage of hits, runs and errors.

Joel's Horse Wins

NEW MARKET, Eng., May 3.—The 3,000 guinea stakes was won here by J. B. Joel's three-year-old filly Jest, ridden by Danny Maher. Taslett was second and Wyn third. Twenty-two ran. All the starters carried 128 pounds. The distance was one mile.

VOL CLUB LOOKS GOOD WILL MAKE NO CHANGES

BY JACK NYE.

A mere first division berth will not satisfy the Volunteers this season. They have serious designs on the pennant.

What authority have we for this statement? As if our word were not enough, we take pleasure in presenting Hon. W. G. Hirsig, the genial and popular president of the local baseball club. President Hirsig, being duly presented, has the following to say:

"It's about time Nasheville was winning another pennant and Manager Schwartz and myself are determined to turn the trick if possible. We have a first class team in every respect, with the single exception of the twirling staff, which is still not well balanced. But we are in a position to correct any weakness in the box in short order and intend to do so before many days.

NO OTHER WEAKNESS

"Outside of the pitching staff, we compare favorably with any team in the league and I believe that only Atlanta and Mobile are our equals, the former by reason of its heavy hitting and the Gulls because of their steady pitching staff and general all-round excellence. As a fielding organization, we lead the league by a wide margin and the men have not yet reached their real stride with the bat. The fact that they have been able to win a majority of their games while hitting less than any team in the circuit, certainly speaks well for the brand of inside ball Bill Schwartz is getting out of them and when they do begin to hammer the ball, as they are sure to do soon, you can watch for them to have a sensational winning streak that will put them around the top, if not on it.

"We are well pleased with the two new pitchers secured from Cincinnati. Dahlgren proved he had the stuff in the second game with Birmingham, and Schwartz writes me that he is more than pleased with the showing of McManus, who pitched a little over one inning against Atlanta in Saturday's game. McManus went in with no outs, after Case had been hammered from the box, and struck out the first two men who faced him. A few lucky hits, however, drove several runs across and Schwartz thought it advisable to send in Fehlarty, whose knowledge of the weaknesses of the Atlanta batters was needed to check the rally.

BECK IS A STAR.

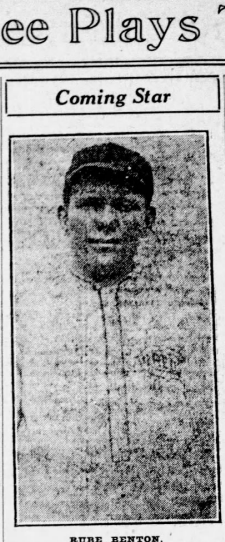
"In Beck I think we have one of the best young pitchers in the entire league, while Williams may yet round into his right form. This little left-hander certainly has the natural ability and I am at a loss to account for his howling this season. But many a pitcher has gotten away to a bad start, only to finish strong. The fans should not pass judgment on Williams until he has gotten several more chances.

"The pitching staff as it now stands will probably not last very long, as Cincinnati wants to place another good man with me and I feel that we may need him. Just who will be let go it remains for Bill Schwartz to say.

"The local outfield is just reaching its stride with Daley still playing under his real form. The infield can't be beat for results. There are infields in the league that can bat better, but I think Schwartz, Goalby, Lindsay and Perry will be of more value to the team than a harder hitting quartet. Perry and Schwartz are good hitters, while Goalby is a fast man on the bases and a splendid man for the second position in the batting order.

"We should be in the pennant race all the way, as we have gotten off to a good start, a thing we could not do in 1911 or 1912. Bill Schwartz is the best manager in the league and every player on the team is ready to work his head off for him. This is the spirit that counts. Watch the Vols this season."

Coming Star



RUBE BENTON,
Southpaw of Cincinnati Reds who critics believe will eventually develop into as great a hurler as Rube Marquard.

Hitting Fest Won by Georgia

Seventeen Hits Made off Tennessee Twirler—Every Player in Game

ATHENS, Ga., May 3.—Georgia fattened her batting averages again Friday when they rapped Hutcheson, Tennessee's star hurler for seventeen safeties. Corley, who faced Tennessee, got away with five hits registered against him.

Ginn, McWhorter and Harrison had big days with the stick, rapping out three hits apiece. Two of McWhorter's were clean home runs, and one of Harrison's was a screaming single which took a bad bound and went in the ditch for a circuit smash. Every regular on the team got a hit.

Tennessee scored when Cunningham sent in substitutes, who were a little nervous. The volunteers also added to Georgia's hits their many errors. Holden, the man who is taking Covington's place at third, played a steady game, and got one hit.

It is getting to the place now where the only men who star for the Crackers' collegiate aggregation are the men who land on the opposing twirler for more than two safeties.

Umpires Are Named For Appalachian

KNOXVILLE, Tenn., May 3.—President Jacob Smith, of the Applachian league, has appointed three umpires to officiate in this league during the present season, as follows.

C. M. Wahoo, of Athens, Ga.; H. N. Minnis, South Pittsburg, Tenn.; Harry Nickens, Nashville.

Umpire Wahoo is very well known in this section, and his selecting is a popular one with the fans. Wahoo did a little service in the Appalachian last season, his work being of the especially high order.

Of the other two men little is known here. However, they were personally recommended to President Smith as men who are real umps in real games.

Operation for Gotch; Hurt During Match

MARSHALLTOWN, Iowa, May 3.—Frank Gotch, of Humboldt, Iowa, champion wrestler, underwent an operation in a hospital here for the removal of a bone growth in his nose. The growth is said to be the result of an injury sustained in a wrestling match several years ago. Gotch has lately experienced difficulty in breathing and hearing. The right side of the nose was operated on today and the other side will be treated later.

Fittery and Brady Named To Pitch Game

Concluding Battle at Rickwood Field Slated for Saturday, Two New Players for Barons Report Next Week

BIRMINGHAM, Ala., May 3.—The Atlanta-Birmingham series will be concluded with the game here Saturday, Brady working on the mound for Billy Smith and Fittery for the Baron mogul. Mayer and Dunn will again do the backstopping, Pat Graham, the other Atlanta catcher, being in the outfield owing to the absence from the line-up of Bailey.

The Crackers lead in the present series two to one and the Barons are anxious to get at least an even break by winning today, the Crackers having won three of the four games in the last mixup.

Manager Molesworth has started to strengthen his club by the addition of a new outfielder and a third baseman, and it is possible that another mound artist will be taken on shortly. Pete Kinseley, an outfielder, and Eddie MacDonald, a third baseman, are the two men who have been purchased from the Chicago Cubs. They will join the club here the first of next week and jump right into the game, Carroll, the present third sacker, being held as utility and pinch hitter.

WHITEY BIG AID TO BILL

Whitey Alpermann is a great aid to Billy Smith and the blond second sacker is in the game all the time. He and Smith consult on plays, evidently judging from their close position on the bench and Smith can make no mistake by taking much of Alperman's advice. The Cracker keystone guardian is one of the most valuable players in the league and around him the Atlanta team is builded.—Birmingham Ledger.

TODAY

CHATANOOGA, May 3.—Nashville and Chattanooga meet this afternoon for the fourth game of the series. The weather is warm and clear. Batteries, Chattanooga, More and Street; Nashville, Williams and Noyes.

NEW ORLEANS, May 3.—Memphis and New Orleans will play the final game of the series today, with Southpaw Evans, of the local club, pitching, and Angemeir behind the bat. For Memphis Kroh, also a southpaw, and Seabaugh, catching, will be the battery men.

Memphis will leave tonight for home, playing Nashville Sunday. Pitcher McIntyre and Outfielder James, recently taken on by Manager Frank, reported for work today.

MOBILE, Ala., May 3.—Campbell and Berger are scheduled to work on the mound for Mobile today, with Brown behind the bat. Paige will pitch for Montgomery with Donahue receiving.

Gene Paulet, first baseman, is out of the game owing to illness and may be out permanently. He was taken ill on the field Friday, just before the game started. Dave Robinson will hold down first temporarily and Corbett will be sent to right field.

Manager Dobbs, of Montgomery, announces the release of Shortstop Knauppe from the New Orleans club and he will report as soon as the New Orleans manager gets Williams from Atlanta.

Again Riverside Wins; Gordon Team Is Loser

GAINESVILLE, Ga., May 3.—Riverside ran away with Gordon here Friday afternoon by a score of 13 to 2, incidentally winning her fifteenth straight game.

The fourth inning was fatal for Gordon, Riverside scoring eleven runs during that session. Crow and Preas batted well for Riverside and Morris batted at second.

Score:

	R.	H.	E.
Riverside	13	13	3
Gordon	2	6	6

Haynes and McNeill and Montgomery-Slappey, Hughes and Bankston. Umpire, Fluker.

Whitney's Horse Is Third in Big Race

NEW MARKET, England, May 3.—The two thousand guineas stakes for three-year-olds over a mile course was won by W. Raphael's Louvois. Graga-tum was second and H. P. Whitney's Meeting House was third. Fifteen ran. The French winner was ridden by Johnnie Reiff, and the American horse by F. O'Neill, both American boys.

HOW GAMES WERE WON

The only run the Reds made against the Cubs yesterday came in the fifth when Bescher tripled and Evers threw into the stand trying to head the runner at third.

Smith held the Cubs to four scattered hits, but lost his game, wildness and errors being responsible.

Pittsburg won its first game, after suffering five straight defeats by trouncing the Cards yesterday, 5 to 4. Hard hitting by Miller, who got a triple and a double, helped the Corsairs.

With St. Louis runners on third and first in the ninth inning and the score 5 to 4 in favor of Pittsburg, with two men down and only a hit needed to tie the score, Viox made a fast play on Mowrey's hard smash anr retired the side.

With the score of the Brooklyn-Boston game tied at the end of the eighth, an dtwo men on bases in the ninth, Mann smashed a liner to center, just as the runners started a double steal. Stengel was coming in fast, expecting to back up a throw to second, and the ball shot over his head for a home run.

In the eighth inning of the Philadelphia-Giant game, Doolan dispnted a decision of Umpire Byron's and was ordered off the field.

Easterly's long double to renter in the ninth, after Borton had beaten out an infield tap, broke up the game between the Sox and the Tigers.

In the fourth inning of the game between the Naps an dthe Browns, Land stole third and tallied on a fumble, while in the same frame Chapman singled, went to second on a throw to the plate, stole third, and then stole home. Some stealing!

A curious incident of the game between the Yankees and the Athletics came in the fourth when the Highlanders jogged around the pillows for four runs, scored on errors and passes with the aid of only a scratch infield hit.

Bob Groome, hurling for the Senators, allowed the Red Sox but one hit until the sixth inning, when they tied the score on three singles and a couple of passes. Washington won out in the seventh.

Brenton, doing the slabbing for New Orleans yesterday, allowed the Turtles but three hits, the Pels copping 8 to 1.

Dave Roberson, who broke up the Mobile-Montgomery game the other day with a drive over the fence in the twelfth, again featured the battle between the two clubs with a triple and a double, both of which scored runs.

MAINSTAYS OF WASHINGTON CLUB

WILLIAMS MAY GO TO PELICANS; MAY SIGN OTTO JORDAN AS UTILITY

Jordan Is Bit High-Priced Man and This May Block Deal for Him

It now looks as if Shortstop E. Williams, recently turned over to Atlanta by Washington, will have to be sent to the New Orleans club, Manager Frank having made a fight for the youngster following his claim which was filed on February 1.

In the event William is ordered to New Orleans it is possible that Otto Jordan, ex-Cracker manager, will be signed for utility roles by the Atlanta club.

Since Jordan's unconditoinal release by the Chattanooga club it is known that he has been anxious for a job with the Crackers, his first love, and all that stands in the way of signing this popular player is the salary question. With Williams working as utility the Atlanta club is right now jam up to the montaly salary limit, and to take on Jordan in place of Williams is an impossibility, unless the veteran is willing to sign for less than ever before.

Right now oJrdan is in communicaton with several clubs relative to signing for the remainder of the season, but he has yet to come to terms with them. He would prefer to come to Atlanta and it is possible that he will willingly come down a few dollars in his past pay.

When Williams was first turned over to Atlanta the Pelicans made a kick, Frank claiming he had put in a claim for the player in the specified time. He has now taken the matter to the highest baseball tribunal and it beings to look as if he will be awarded the youngster. It is purely a question of baseball law and if Atlanta loses the player there will be no money lost.

Every club needs a good utility player if t twould make a successful race for a pennait, and Manager Billy Smith intends to keep on hand just such a man. Jordan would undoubtedly be the right man for the place.

Will Quit Track

CHICAGO, May 3.—Irn N. Davenport, the great half-miler, is en-route to Hot Springs, Ark., to begin training for his last race. He has announced he will retire from active athletics after competing in the Central A. A. U. championships at Northwestern field on June 21. He hopes to crown his career on the cinder path by establishing a new world's record for the half-mile.

Federal League Opens

CLEVELAND, May 3.—The first game in the first series of the Federal league will be played here between the Covington, Ky., and Cleveland teams. Sam Leever and "Cy" Young, both former big league pitchers, are the rival managers. Ten years ago the two opposed each other in a world's championship series, when Young pitched for Boston and Leever for Pittsburg.

Ten All in Row For the Yale Team

NEW HAVEN, Conn., May 3.—Yale won its tenth straight baseball game by defeating University of Virginia 4 to 2, in a brilliant contest. Both teams fielded sensationally and five double plays were made. Twice Virginia players were cut off at home by perfect throws from Yale outfielders.

Four Triples All Bunched; Tech Winner

Sewanee Outfit Could Not Hit Eubanks, While Tiger Hurlers Were Hit Hard and Often—Final Count 13 to 0

For three innings Friday the Sewanee infield made all the bone plays in the ivory category, the Sewanee pitchers allowed themselves to be pounded unmercifully, and the Sewanee fielders played push-pins with the ball, the final result being that Tech made six runs in the second, [illegible] in the fifth, and thirteen in all.

It was an awful slaug[illegible] While it was evidently an off [illegible] and a rather distant one, for Sew[illegible] Tech, on the contrary, played p[illegible] its best game of the season, [illegible] the scrub players who started [illegible] and the first-string men who [illegible] ook the field playing jam-up ba[illegible]

Smoey Eubanks hurled hi[illegible] for four innings, when he was [illegible] by Gamble. The Tigers got [illegible] hits off the latter, although th[illegible] ed to score. He pulled out of the hole nicely in the sixth, when Sewanee filled the bags with none out.

Two men were forced at the [illegible] and one fanned.

The Sewanee bunch must h[illegible] some allowance. They have be[illegible]ing daily on the road since last [illegible] including several double-headers [illegible] have played good ball, too. H[illegible] the team that defeated Mercer could make such a showing against Tech [illegible] beyond us. They must have been "all in down and out."

Today's game should certainly be a better one. With Eubanks again on the mound for Tech, and the regular Jacket infield working, the local college lads will have a formidable lineup. Sewanee will pitch Johnny Gordon, the Tigers' crack south-paw, the man who beat Tech last year, and who has been winning games right along this season.

Tech started the fireworks in yesterday's game in the second inning with the sub lineup in the game, Fax Montague drew a free pass. Malone hit an easy one to Hammond which the Sewanee third-sacker fumbled, and both men were safe. Amason rolled a slow one toward the box. Eggleston turned to throw to third, saw he was too late there, and tossed to first nearly a full minute after runner had crossed the bag. The bases were full with none down.

Attride singled to left and Montague and Malone scored, Amason advancing to third. Eubanks struck on a passed ball and Amason counted. T. Montague grounded to easy one which Hammond again messed up, and Attride scored. T. Montague took third. While both Tiger pitcher and catcher went to town, T. Montague stole home. Wooten hit to Whited, who made Sewanee another error and allowed the runner to be safe. Moore sacrificed Wooten to second, and he scored when Pitts singled to center.

McGoodwin went to the rifle pit for the Tigers in the fourth, and singles, four of them triples, off his delivery, allowed the Jackets to score six times. Hammond subbed out in the box during the three innings he held the Jackets to one run and one hit. He received cracker-jack support, several sensational catches being made, of which McGoodwin's one-handed stab in the outfield was one of the prettiest ever seen at the Flats.

Big Crowd for Talladega Opener

TALLADEGA, Ala., May 3.—Preparations are being formed to have a record breaking crowd present at the opening of the Georgia-Alabama league here on Monday. The commissioners of the city have declared a half holiday for the event. All the merchants have agreed to close.

A brass band has been secured for the occasion and there will be a parade before the game. Opelika will be the opposing team, and from reports, they have a good team.

Talladega's line-up for the game will be:

Billingsley or Wilson, catcher; Cantley, pitcher; Kinser, first base; Dawson, second base; Higgins, shortstop; Chambers, third base; Beers, left field; Samples, center field, and Camp, right field.

Wilson, a catcher, from Anniston, joined the team Thursday.

From the present outlook it seems as Reese will have the best pitching staff in the league. The staff is composed of Beers, Cantley, Woodruff, Reese and Robertson.

THE CASEY AFTERMATH.

When Casey on that day cut gashes in the air,
And fell down like a bush-league mutt with several lengths to spare;
Did Casey—mighty Casey—speak as follows, or to-wit—
"That bloke had more upon the ball than this old dog could hit?"

No—Casey trailed the Union Rules and held the ancient laws;
He spoke no words of "curves and speed"—or "stuff without a flaw"—
But trailing backward to the bench, there came this final fling—
"What has he got? That busher—why, he hasn't got a THING."

EVERS VS. TINKER.

Any doubt now as to whether or not Evers would be able to beat out Tinker has vanished. All that Joseph the Red has to fall back on before slipping by the Cubs is amastodonic miracle. The season may be young and all that bally sort of thing, but it is old enough to indicate that the Reds will never catch the Cubs in this gala season of 1913. They may be in 1914 or 1915, but not by the forthcoming October.

There was a brave bandinage of fast flying dope between the two clubs on April 9. Whereupon it took Ever exactly three weeks to conclude said badinage for good and all. No gap between two ball clubs was ever opened with such speed before nor carried forward with such a rush.

No wonder that Washington investigation of the baseball trust ceased with such sudden abruptness.

When the congressional probe was started some keen-eyed politician soon discovered that the greatest trust or monopoly in the game was lodged in the main hinge attached to Walter Perry Johnson's shoulder.

If the heart of the monopoly is to be shattered the only fair procedure would be in dismantling Johnson's arm. If the congressional committee cares to take a chance of being boiled in oil it can start after the big slabman without delay.

In reply to those who have queried as to what is the matter with the Yanks, we point to the standing of the clubs without further words. Even an additional comma would be wasted evidence after that.

The Dodgers can win for any other pitcher on the club except Nap Rucker. They have been kicking Nap's games away for so many years that force of habit still controls when the great southpaw steps in the box. It is only necessary to inhale a look at the set, earnest faces of the Dodgers when Rucker strolls into the box. They can hardly restrain themselves from blowing wide open as the first ball is pitched. If Dahlen expects to win with Rucker he should give him a fair chance and let him try it alone some afternoon.

THE BEST DEFENSE.

"The best defense in the world," Hurry-up Yost was wont to remark, "is a strong attack."

In the same direction Evers and company have apparently figured out that the best pitching staff in the world is the one backed up by five or six runs per game.

There may be another answer to this, however, when the Cub machine next week starts in against Seaton, Alexander, Rucker, Mathewson, Marquard, etc. The balance of pitching in the National league is all in the East.

It took a regular disease to block Kid Foster out of the battle line. The Senatorial star stuck through 154 games last season and when his temperature drops as low as 103 he's liable to be back at third again.

The answer as to which wins offensest—great hitting or star pitching, was answered when Johnson met the Athletics. And the answer was 2-0. Johnson predominating.

CHURCH TEAMS ORGANIZED INTO FAST BALL LEAGUE

NEWARK, N. J., May 3.—A baseball league, composed of teams representing the largest churches at Rutherford, N. J., has been organized and will shortly begin its season's schedule. The league was organized with the object of increasing the Sunday school attendances, as no player will be allowed to participate who is not a scholar in the classes or one of the churches which are members of the association.

Six teams are in the league. They represent the Presbyterian, Unitarian, Congregational, Methodist, Baptist and Episcopal churches. At the first meeting of the league a constitution was drafted and approved and officers elected.

A schedule of twenty-three games was adopted, the first contest to be played on May 3. All games will be played on Saturdays. Double-headers will be played every week and on holidays throughout the season. The games will be played on the grounds of the Rutherford Field club.

The victorious team will be awarded a championship pennant and trophy, the latter a handsome silver loving cup. Other trophies and prizes will also be given.

Sailors Play At Ball Game

PHILADELPHIA, Pa., May 3.—A baseball league which does not fear a baseball trust investigation by congress, and pays no attention to the mandates of the National Commission, opened its season here today. It is the Battleship league, of the United States navy, and nine teams from the crews of twelve warships at the Philadelphia navy yards make up the organization.

The league has the sanction of Rear Admiral Knight, and includes teams from the battleships Wisconsin, Alabama, Mississippi, Maine and Missouri, the scout cruisers Birmingham and Salem, a joint team from the crews of the Kearsarge and Kentucky and another team formed from the men of the Indiana, Massachusetts and Iowa. The battleships making up the joint teams are in second reserve and have not sufficient men to put strong separate lines in the field.

Games will be played Wednesdays and Saturdays. Two contests are scheduled for today, one being the Birmingham and the Missouri and the other the Kearsarge-Kentucky team and the nine from the Salem. One officer from each vessel is permitted to be a member of the ship's team. Lieutenant Commander Frederick D. Barnes, fleet engineer, is secretary of the league. The prize, in addition to the championship of the fleet, will be a silver cup.

SOPHS TAKE TRACK MEET

AUBURN, Ala., May 3.—Auburn people and Auburn students enjoyed the annual May day holiday and its events to the fullest. The usual track meet with Tech was called off this year, but the class track meet which was scheduled in its place was full of interest and class rivalry. The sophomore class won the meet by a large margin Sophomores 84, seniors 34, freshmen 19 and juniors 10.

The highest individual score, which was rewarded was a handsome gold medal, was won by "Baby" Taylor, of the freshman class, with a score of sixteen points. "Baby" Taylor is a man of football fame, and tips the scales at present at 220. Notwithstanding this, he won first in the 100-yard dash—time, 10 2-5 seconds. He also won the shot put, and ran the 220 dash in twenty-four seconds flat, winning first in this also. He also won points in the broad jump, the low hurdles and the hammer throw.

TWO GREAT CATCHERS AND STAR AT THIRD BAG HELPING EVERS

Johnny Evers, now manager of the Cubs, and himself perhaps the greatest second baseman in baseball, will rely largely on two great catchers and a great third baseman to win the National league pennant for the Cubs this year. He has Jim Archer and Roger Bresnahan, catchers, and Heinie Zimmerman on third base.

Last year Zimmerman led the National league in batting, having a percentage of .372. Bresnahan, then playing in St. Louis, had a percentage of .338, while Archer batted .283. Unless Bresnahan has gone back he and Archer are the two best catchers in baseball. Either of them ought to be sufficient for one club.

When Bresnahan was catching for the Giants in New York he was counted among the three great men behind the bat, the others being Billy Sullivan, of the White Sox, and Johnny Kling, of the Cubs. Then he went to St. Louis as a manager, but found it impossible to get along with Mrs. Britton and her suffragettes.

Zimmerman has been with the Cubs a long time, during which he acted as utility man. But since he has taken charge of third base he has become a star. Last year Archer fielded .966, Bresnahan .974 and Zimmerman .917. While the old Cub machine under Frank Chance has gone to pieces, Evers, who succeeded the Peerless Leader, has in these great players and himself the nucleus of another as good.

Mercer Turns On Vandy Club

MACON, Ga., May 3.—Hunt, who pitched nine innings against Vanderbilt Thursday, pitched seven shutout innings against Vanderbilt Friday, giving up but four hits during the eight he worked. He was weak in the ninth, walking three batters and giving up one hit.

Roddenbery relieved him, fanning one and making a double play on the next two outs. Mercer made eleven errors Thursday and Vanderbilt an equal number Friday, which cost them the game, Mercer 7, Vanderbilt 2.

Score:	R.	H.	E.
Vanderbilt.....	2	4	11
Mercer.....	7	9	1

Batteries—McClure and Brown; Hunt, Roddenbery and Irwin.

Locust Grove Cops

LOCUST GRAVE, Ga., May 3.—Locust Grove Institute showed a complete reversal of form Wednesday and defeated the North Georgia A. and M. college, 13 to 1.

Locust Grove scored five runs the first inning and the Dahlonega farmers went up in the air, and when they got back at the end of the seventh L. G. I. had 13 runs.

Herrington started to pitch the game but retired during the third for Palmour.

Combs pitched well and the North Georgia team did not reach third but once.

The entire L. G. I. team hit the ball for a total of 18 hits.

In the first inning, with the bases full, Culpepper hit for a home run.

The game was called at the end of the seventh inning to allow Dahlonega to catch a train, but L. G. I. was still scoring, making four in the seventh.

North Georgia A. and M. left for G. M. C. for a series of games.

The following is the score:

Score by innings:	R.	H.	E.
Dahlonega..... 100 00 0—1	2	3	
Locust Grove..... 5000 202 4—13	18	2	

Batteries—Dahlonega: Herrington, Palmour and Huey. L. G. I.: Combs and McCorvey. Umpire, Combs.

N. G. A. C. Club Winner In Tenth Straight

DAHLONEGA, Ga., May 3.—By defeating the Dahlonega Athletic club, the North Georgia Agricultural college scrubs registered their tenth consecutive victory, having played the whole season thus far without suffering defeat. Cliff Robinson twirled for the scrubs and was in magnificent form, fanning sixteen men. This young southpaw shows great promise of developing into a star. Griffin, Brock and Brown starred with the stick, while Bush did great work on the bases.

Hot After Gamblers At Racing Tracks

ALBANY, N. Y., May 3.—The state Law and Order alliance is going to see to it that the race track gambling law is enforced on every track this year, according to its superintendent, George H. West.

The officers of this organization are going at it in a "sane, sensible way," said Mr. West last night. "Their purpose is not to kill horse racing, but to kill gambling. They are not after the directors of racing associations or the law enforcement officers of the county; they are after the gamblers.

Baseball Banquet By St. Philip's

The Men's Bible class of St Philip's cathedral gave a baseball social on Tuesday evening to give the amateur team which represents the church in the Sunday School league this year a good send-off.

A well arranged program was carried out, following which refreshments were served.

"When I Dream of Old Erin"—Class quartet, Clower, Phillips, Fox and Everhardt.

"Amateur Baseball"—Mr. J. W. Heisman.

"Mine," illustrated song—Miss Josephine Rainwater.

"Sweet Eileen Asthore," class quartet, Hargrove, Christian, Renault, Hargraves.

"Baseball Yarns"—Mr. Julian Murphey, with illustrated slides by Mr. A. W. Brewerton.

"Sweetheart Sue"—Miss Josephine Rainwater and class double quartet, Clower, Hargrave, Christian, Renault, Fox, Phillips, Everhardt, Hargraves.

Baseball "Don'ts"—Mr. Dick Jamieson, illustrated slides by Mr. Lewis Gregg.

Moreland Avenue Wins

For the third consecutive time, the Moreland avenue baseball team beat the Ponce de Leon team. Morgan, who pitched for the Moreland avenue boys, had the Ponce de Leon team at his mercy and at no time was he in danger. The Moreland avenue boys fielded well and hit th ball at will. Score 13 to 7.

Mountaineers Downed Marist

Yesterday afternoon at the Marist campus, Stone Mountain defeated Marist college, 7 to 3. The game was slow, and except for the sixth and ninth innings was very uninteresting.

Allen, Callahan and Roberts played good ball for Marist, Allen and Roberts each getting two bingles, one of Roberts' going for two sacks. Callahan pitched good ball, but his support was not as good as it has been. Allen featured in the only double play of the game, catching a hot one off Horton's bat and doubling Morton off first.

For Stone Mountain, Vanderve was the star. He gave up only five hits and made nine men fan the air. He secured two hits and drove in one run. Monahan and Morton also played well.

S. M.....100 000 600—	7	5	3
Marist.....200 00 001—	3	8	4

Summary—Two-base hit, Roberts; struck out, by Callahan 6, by Vanderve 8; walked, by Vanderve 4; double play, Allen to Cheeves; stolen bases, Allen 2, Strupper, Norton. Time, 1:45. Umpire, Dean.

Rome Ready for Opening Fracas

ROME, Ga., May 3.—The Rome baseball team is getting in fine shape for the opening of the season on May 8. The team played the Rome High school yesterday afternoon, winning by a score of 29 to 0.

John Cochran, a hard hitting outfielder who was with the Southeastern league last year, made three home runs. Hummell, who played shortstop on the Morristown club last year, hitting .243 and fielding .897, joined the squad yesterday.

Hudnall will probably hold down third base. Hopper and Powers are putting up a warm fight for first. In the outfield, Reidy, Cochran, Whitfield or Reece will work. There is a big line of twirlers to choose from, including Davis, Killingsworth, Moorer, Schoettlin, East, Goins and DuBose.

The next engagement of the local team will be on Saturday afternoon with the Lindale aggregation.

Dahlonega Cops

LOCUST GROVE, Ga., May 3.—In a slow and listless game, Dahlonega defeated Locust Grove Tuesday 4 to 1. Errors were responsible for two of the visitors' runs. Jones, of North Georgia Agricultural college, pitched a gamefemarkable for his slowness. The two teams play again tomorrow. Batteries: Locust Grove institute, Dosier and Scout; North Georgia Agricultural college, Jones and Haly. Umpire, Combs.

McGoorty-Clabby Draw

DENVER, May 3.—Eddie McGoorty, of Oshkosh, Wis., and Jimmy Clabby, of Hammond, Ind., claimants of the middleweight championship, fought ten fast rounds to a draw here last night. There were no knockdowns. The decision was well received by the crowd.

BUSH HITS SLOW BALL; WILL BEAT OUT BUNTS

Diminutive Detroit Shortstop Now Going at His Best Clip

Donie Bush, the Tigers' dynamic shortstop, has concocted, evolved and otherwise mentally matured a plot or scheme whereby he not only hopes but confidently expects to be numbered with the strong men of the flail at the end of this season.

Mr. Bush, long known to American league fans as a prince among fielders and a baron of base runners, has been for some seasons past just one of the common people when it comes to batting.

He has made plays that ought not be permitted in daylight and has distinguished himself as one who could fly around the paths like a butcher boy to a fire, but he hasn't been connecting with the swinge, globe or missile of play regularly enough to suit either himself or his manager.

Now things will be different. Taking a careful squint at his failing, Bush has come to the conclusion that the slow ball is the knock on which he splits. He can caress curves and flatten fast ones, but as soon as they begin to hand up the floaters, he is ready to quit.

Naturally the majority of pitchers and catchers in the American league have made the same discovery, and as a result, Bush never sees much besides slow ones when there is a flinger on the mound who includes that delicate delivery in his repertoire. They fairly have slow-balled Donie to death.

The midget blames Eddie Summers for discovering the skeleton in his batting closet and rattling it before the world. In batting practice, it was Summers' greatest pleasure to throw the little infielder the floating thing until he tore his hair and pranced.

Bush declared that in all his life Summers never pitched him a ball that did not seem to hesitate on the way up to the plate as though it had forgotten something and meant to go back after it.

But in future, Donie not only will have no fear of this sort of hurling, but will fairly dote on the lackadaisical delivery. He will moan and sigh for more slow balls to hammer, so to speak.

Buntation is the solution of the problem that has worried him so long. He has discovered that he can lay the slow ball down to perfection, and he means to work at it until the pitchers are tired of trying to throw him out on gentle taps expertly placed, and pitch him much speed, which he may lam to the uttermost fence.

Being unusually fast in getting to first base and celeritous in quitting the plate after connecting, Donie thinks that he will be able to convert a lot of his bunts into hits. Other players who know his speed are inclined to agree.

GRIFF WANTS TO GET LAKE

PHILADELPHIA, May 3.—Manager Griffith is making another effort to secure the services of Joe Lake, the veteran pitcher of the Detroit club. Waivers have again been asked on Lake and Griffith has refused to grant them in the hope that he can add Lake to his own pitching staff. Griffith figures that for a while at least, all his young pitchers are apt to need help in any game they start and he figured that Lake would be just the man to have around to go on the slab in case of emergency, because he has a spit ball and is always bothersome for a few innings.

It is, of course, a bit strange that Detroit, which needs pitchers badly, should want to let Lake go if he can be of any service to the Nationals, but as Griffith only wants to use him to finish games he would be intended for another entirely different purpose in Washington than he is serving in Detroit, where he is a regular member of the pitching staff and expected to take his turn on the rubber. Whether Lake will be turned over to Washington depends entirely on whether the Detroit club is willing to accept the waiver price for him.

Newnan Goes Good; Wins Another Game

NEWNAN, Ga., May 3.—The Newnan ball team defeated the strong Greenville, Ga., team before a large crowd of spectators. Hawkins, for Newnan, pitched superb ball, while Becker was hit hard by Newnan.

Robinson, a "tryout" with Newnan, was released immediately after the game. W. H. Cranford, a local player, was signed.

The Greenville-Newnan game is the last practice game that Newnan will play, thus having defeated East Point, Greenville and other strong teams. Newnan expects to stand high in the league, which opens next Monday.

EMORY HOLDS TRACK MEET

OXFORD, Ga., May 3.—Emory's interclass track meet was held yesterday afternoon. All classes, including the sub-freshmen department, were entered.

The afternoon was cool, and partly accounts for some of the poor showings, although these events give evidence to a belief that Emory will not be among the last in winners when they meet Mercer in a dual meet at Macon, on May 10.

The seniors were the winners in points, securing 55, while the sophomores were second, with 35. The other classes ranged with freshmen, 5; subfreshmen, 5, and juniors, 1.

Carlton was the big personal point winner, he rolling up 32 points, only lacking four to beat the sophomores single handed.

The events resulted as follows, in the order of winners:

100-yard dash—Carlton (senior), Lasseter (senior), Porter, (sophomore.)

220-yard dash—Carlton (senior), Porter (sophomore), Lasseter senior.)

440-yard dash—Carlton (senior), Fagan (sophomore), Lasseter (senior.)

Half mile run—Lasseter (senior), Rumble (sophomore), Griner (freshmen.)

Mile run—Singleton (sub), Hayes (freshmen), Branham (freshmen.)

Pole vault—Muse (senior), Mathews, (sophomore), H. Towson (senior.)

High jump—Monfort (sophomore), Belk (sophomore), and Carlton (senior.) tied for second place, dividing points.

120 hard hurdles—Porter (sophomore), Muse (senior), Fagan (sophomore.)

Hammer throw—Carlton (senior) Belk (sophomore), L. Towson (junior.)

Broad jump—Carlton (senior), Porter (sophomore), Muse (senior.)

Shot-put—Carlton (senior), Belk (sophomore), Perryman (senior.)

The officials for the day were Prof. Goodyear, referee; Prof. Stipe, starter; Dr. Duncan, Prof. Hanner, judges; Prof. Shingler, Prof. Peebles, Loehr, timers; J. E. Mathews, announcer; Langston Williams, scorer; W. W. Irvine, clerk.

POULTRY, PIGEONS AND LIVE STOCK

Why Not a Dog Show for Atlanta?

THERE has been much interest shown in the breeding of fancy dogs since the recent dog show conducted at the auditorium in connection with the purefood show, and many breeders of fine dogs in and around Atlanta have been agitating the question of holding an annual dog exhibition every year. Several prominent people of Atlanta have written me in reference to this matter and many seem to want to organize a regular kennel club show. The only proper way this could be done is for those that are interested to call a meeting some day at some particular place in Atlanta, and if enough interest is shown, organize a stock company or a fanciers' club and get up a regular association for this purpose. There are enough lovers of fancy dogs in Atlanta to warrant such and those who own such dogs should not hesitate to contribute a reasonable amount of money and do some work connected with getting up a show of this kind. One of the great drawbacks in conducting all public exhibitions is usually the work falls on the secretary and probably one or two others, and those who have the time to do this work are usually men who haven't the means to finance or successfully put on these exhibitions. It costs money to run any show and unless the fanciers are willing to pay for it it cannot be successfully done.

There has been a number of shows attempted in Atlanta and other places, but they do not as a rule receive the support that they should have. Therefore, it is a hard matter to get any one to undertake this work without sufficient money is appropriated to successfully conduct such an exhibition. There is lots of work attached to getting up a dog, poultry or horse show, and it costs considerably more money than many people believe. But, as they are so successfully conducted in nearly every large city, there is no reason why Atlanta should not have her annual horse and dog show every year as they have the most suitable place in the country for conducting such.

If the different fanciers who will be interested in the organization and will be interested in a dog show will send me their names and addresses and are willing to support a show of this kind, if enough to warrant a meeting will show interest in this matter, I will call a meeting some time during May and see what can be done in this respect. The papers are all willing to give their liberal support, and if the breeders who own good dogs will show enough interest in this matter immediately there is no reason why a good club should not be organized some time during May and get things in shape for a show the coming fall. Some very prominent business men in Atlanta have written me personally in the last few days and seem to be much interested in this line of work. There is no reason why Mrs. Hill and others who so successfully conducted the last show in Atlanta should not take charge and conduct a successful show of this kind. Mrs. Hill is undoubtedly the right person to act as secretary, and with the assistance and co-operation of many of the other fanciers in and around Atlanta, I see no reason why a permanent organization cannot be gotten up for this work. Those who are interested can either write Mrs. Hill or myself and we will see what can be done.

Yours very truly,

QUESTIONS ASKED AND ANSWERED.

QUESTION.

St. Augustine, Fla.

Would it be safe to give permanganate of potash or any of the soup remedies in a galvanized drinking fountain? Would it in any way poison the chicken? In your remedy for scaled would you say give salts in water on Tuesday and sulphur in bran mash on Friday? Would it be just as well to give salts in bran mash on Tuesdays and sulphur in bran mash on Fridays? If so, about how much salts or sulphur would you put to say one quart of bran?

I was over to the Jacksonville fair in January and was disappointed in not seeing you.

Please answer this at once. Thanking you in advance, I am,

C. D. S.

ANSWER.

It is all right to use permanganate of potash in galvanized drinking vessels provided the metal has not been eaten off, and they should be washed and scalded occasionally, because if it stands too long it will cause more or less poison.

A teaspoonful of salts given in a mash for twelve to fifteen chickens once a week, and the same amount of sulphur once a week will prevent scaled legs. They will consume it much better if mixed up with soft mash rather than given in water or solid dry mash.

If your chickens get scorehead, by washing their heads good with one pint of raw linseed oil to which has been added one ounce of carbolic acid it will cure them.

QUESTION.

I have been a reader of your interesting letters for quite a while. Now I have had so many chickens from two weeks up to grown ones and they have hard places on the bottoms of their feet, causing many warts. They are under each toe joint and on the bottom. After a while they seem to rot and open and get sore, causing them to limp, but they eat heartily and are fat, and do not seem at all sick. I feed altogether on cotton seed meal and have patches of green oats for them to range on.

A READER.

ANSWER.

It is something unusual for a chicken to be affected as you state yours are. Sometimes chickens inhabiting a damp, filthy pen will cause sores to come on their feet. Sometimes it will be brought about by using caustic lime which will burn or injure the feet. There is evidently something causing the trouble, and you should look for the cause. If you don't think you need give yourself any uneasiness about them except to try and find out the trouble and remove it. I would not say unless I could see the place that they inhabit.

IN THE REAL ESTATE FIELD

First Presbyterian Church Receives Several Offers for Its Property on Marietta Street—Sciple Home on Kimball Street Resold—Ansley Park Residence and Several Other Small Sales—Bellwood Avenue to Be Widened

The First Presbyterian church is pretty close to making a sale of its property on Marietta street.

Several propositions have been made within the past few days, and while none of them was acceptable to the church, it is believed that they are forerunners of an acceptable bid.

The property is held at $180,000, or $2,000 a front foot, the lot having a frontage of 90 feet. The property is in the same block with the Rhodes building and the new Silvey company structure.

SCIPLE HOME SOLD.

There were quite a number of medium sized sales announced today. In fact, there is considerable activity in residence property in and around vacant lots.

Fischer & Cook have sold for T. S. Wilkins to George W. Brine what is known as the Sciple home, at No. 22 Kimball street, the northwest corner of Cypress. The aggregate consideration was $22,750.

The property consists of a two-story, nine-room house on a lot 114x200, and has been sold and resold several times this season.

ANSLEY PARK SALES.

J. H. Whitten, of M. L. Thrower's agency, has sold for J. W. Cunningham to Mrs. Fisher, No. 120 the Prado, in Ansley Park, a residence property, for $8,750.

This consists of a 9-room, eight-room house on a lot 50x200. Mr. Whitten sold to a client a lot 50x200 adjoining this residence for $2,600.

OTHER SALES.

Turman, Black & Calhoun, through W. R. Turman, have sold the following:

For $5,000, for Mrs. Ella B. Willis, the northeast corner of Eighth street and Bedford place, a lot 100x167, for the Ellis Realty Co. will build three houses on the property.

For O. D. Gorman, Jr., to the Home Building Investment company, the northwest corner of Spring and Hunnicutt streets, a two-story, eight-room house on a lot 50x140, for $6,500.

For Sam Anderson to Baker No. 92 Orange street, for $1,550; for the Lacy estate to J. E. Bowen a lot on Chestnut street, for $550. Also, J. T. Ivary a lot on Greensferry avenue, for $450.

BELLWOOD AVENUE WIDENING.

Property owners on Bellwood avenue have joined in a movement for widening that thoroughfare at the viaduct. The proposal is to widen it to 47 feet between Marietta street and the viaduct, and to fifty feet from Wilson street, at the street end of the viaduct, for a distance of a block or two.

The proposal is to widen both approaches to the viaduct and to make the street more accessible to traffic between Marietta street and the west side.

Several of the owners have already agreed to the proposition, and a petition, with a blue print, is being circulated.

MILLIONAIRE INDICTED ON WHITE SLAVE CHARGE

George H. Bixby Arraigned and Makes Bond—Keeper of "The Jonquil" Indicted, Also

LOS ANGELES, May 3.—Demurrers and other means of legal defense were prepared in behalf of George H. Bixby, the Long Beach millionaire, who was arraigned today in the superior court on two indictments, charging him with aiding the delinquency of two minor girls.

The indictments were returned last night by the county grand jury after a week's inquiry into allegations that wealthy men had an organized system of ensnaring young women for immoral purposes.

The other two indictments were returned at the same time against Mrs. Josie Rosenberg, who already was in jail in default of $15,000 bail.

Mrs. Rosenberg, as keeper of "The Jonquil," the resort at which it is alleged Bixby was known as "The Black Pearl," is charged with having been chief procurer for the wealthy patrons of her place.

Shortly after Bixby was arraigned, Kitty Phillips, the youthful motion picture actress, whose charges initiated the sensational white slavery investigation, was taken to the central police station to testify before the grand jury which will resume its inquiry Monday.

Bixby was taken to the home of a fraternal organization where Judge Monroe Fitzgerald, presiding judge of the superior court, was waiting. Bonds were approved and Bixby returned to his home in Long Beach.

ANGLO-AMERICAN PEACE TOPIC IN PEACE CONGRESS

Canadians Speak Before Delegates Gathered in Session at St. Louis

ST. LOUIS, May 3.—A century of "Anglo-American peace" was the general topic for consideration at the fourth American peace congress. William Riddell, English-Canadian jurisprudent of Ontario, reviewed the history of British-American relations for the last hundred years, and declared that questions more difficult of settlement than are settled by war had been adjusted peacefully between the United States and Great Britain. John S. Ewart, editor of the Toronto Star, spoke on the identity of the interests of the United States and Canada.

Justice Benjamin L. Russell, of the supreme court of Nova Scotia, said it was a settled understanding among the English speaking peoples of the world that no possible question could arise between them that was not capable of adjustment without recourse to the sword.

"That being so," he said, "our first duty is to establish the principles formulated in a treaty from the provisions of which there shall be no excepted questions.

"The proposed reservation of questions affecting the honor of the nation, which I understand so largely recent discussions of arbitration, is nothing better than that notion of honor that formerly obliged a man to present his body as the target for a duelist."

ARTHUR B. SMITH CASE TO JURY ON SATURDAY

(By Associated Press.)

SPRINGFIELD, Ohio, May 3.—The case of Dr. Arthur B. Smith, on trial charged with the murder of his first wife, was expected to be given to the jury late today.

Arguing for the state, an assistant prosecutor today assailed Smith, saying conclusive evidence had been presented, showing Smith had tired of his first wife, Florence, and that the motive for her alleged murder had been shown in Smith's precipitate marriage to Mabel Merchant after the first wife's death.

MANCHESTER PLANS FIRE DEPARTMENT

(Special Dispatch to The Journal.)

MANCHESTER, Ga., May 3.—Citizens of Manchester are now working on the organization of a volunteer fire brigade. It is planned to form an organization to be provided with suitable fire-fighting equipment and to meet regularly for practice in the most speedy and efficient team work in handling fires.

Although Manchester has been exceedingly fortunate in having suffered comparatively small fire losses, the benefits of the fire organization are recognized and the plan is meeting with enthusiastic co-operation.

NEGRO LOSES SUIT AGAINST CAFE KEEPER

(By Associated Press.)

SEATTLE, May 3.—A negro editor, Horace Clayton, today lost his suit for $15,000 damages against a restaurant proprietor who asked the negro not to patronize the place. The judge upheld the defendant's contention that Clayton was not deprived of his civil rights.

After the negro's first appearance in the restaurant, according to evidence, he was asked not to come again. When he did reappear, he was served, but he was not allowed to eat the meal. Again he was asked not to eat there.

BONDS ARE ASSESSED FOR ATHENS BANKERS

(Special Dispatch to The Journal.)

ATHENS, Ga., May 3.—Sheriff W. E. Jackson has fixed the bonds of the bank officials, J. W. Griffin and R. H. McCravy, indicted for violations of state banking laws in connection with the failure of the Athens Trust and Banking company, at $12,000 and $6,500 respectively.

They have been in jail without bond since December.

WOULDN'T CALL DOCTOR; IS HELD FOR CRUELTY

(Special Dispatch to The Journal.)

SUMTER, S. C., May 3.—W. C. Champion, colored, was arrested Saturday for cruelty to children, and was bound over to the general sessions court in default of $500 bond.

Champion, a believer in "Faith Cure," twice refused to allow a physician to prescribe for his child, who died later.

LAGRANGE, N. C., STOPS FIRE WITH DYNAMITE

(By Associated Press.)

LAGRANGE, N. C., May 3.—Ten business houses and several other important buildings in the downtown section of LaGrange were destroyed Friday afternoon by fire of uncertain origin. Dynamite was used in an effort to stop the flames, but failed.

SUNDAY SCHOOL MEDAL WON BY GEORGE TOWNS

Cuban Lad Carries Off Honor for Best Examination

George Thomas Towns, of Holguin, Cuba, a student at the Georgia Military Academy, who is president of the Rev. M. C. Bearace Class of College Park Baptist church, has again won the medal offered by Mrs. G. B. Lindsey, the teacher of the class, for the best written examination on the full quarter's Sunday school lessons just ended.

There is especial honor attached to the winning of this medal, which is a Baraca emblem, watch fob, because of the fact that thirty-three of G. M. A.'s brightest boys compose this class, and they were given their honor to receive no help except from study of their Bible or lesson quarterly.

Each of the twelve review lessons had an average of eight questions, the answering of which required no little time and work, and the fact that these Military boys are kept very busy with their school duties makes Mr. Towns' second victory in these contest speak very highly for him.

This is Mr. Towns' graduating year at G. M. A. and having made an unusual record for integrity, and strict adherence to right principles among his "fellows" during his four years of hard work there, his influence will be greatly missed next term, by the whole student body and faculty, as well as by the Baraca class of the work of which he has meant so much.

MANUFACTURERS OPPOSE WHITEHALL REGRADING

Special Meeting of Street Committee of Council to Be Held Next Friday

The proposed regrading of Whitehall street from Mitchell to Cooper street, and the grading of West Peachtree street from Mitchell to Simpson will be taken up at a special meeting of the street committee of council to be held next Friday, it was decided.

The committee held a lengthy session last Friday afternoon and heard arguments for and against the changing of the grade on Whitehall street. Considerable objection was heard from representatives of manufacturing enterprises.

The committee decided to get additional data from chief of construction Clayton and postpone action for a week.

FLOOD WATERS CREEP ON TO NEW ORLEANS

Returning of Crevasse Waters Swells Mississippi All Below Natchez

(By Associated Press.)

NEW ORLEANS, May 2.—With more water in the Mississippi river along the entire stretch of 325 miles from New Orleans to Vicksburg than in 1912, the crevasse water from the big half-mile gap in the levee at Gibson's Landing, La., began pouring back into the Mississippi river through the Red river this morning. A rise of one-tenth of a foot for the past twenty-four hours ending at 6 p. m. was registered by the gauge at Red river landing and at every point south, including New Orleans. Natchez remained stationary and a fall of one-tenth was recorded at Vicksburg.

The rise from Red river south is expected to continue for about ten days, giving record stages in Mississippi at Baton Rouge, Donaldsonville and New Orleans. The weekly bureau forecast is for stages of forty-four feet at Baton Rouge, two-tenths above last year's record.

Thirty-five feet at Donaldsonville, two-tenths above last year's record, and twenty-two feet at New Orleans, depending upon wheth or equaling last year's record at this place. These forecasts are based upon the assumption that all remaining levees hold.

Compared with April 27, 1912, when the crevasse water started on its return to the Mississippi river through the Red river, there are 4.6 feet more water in the Mississippi river at Vicksburg, 1.3 feet more at Natchez, and one-tenth more at Baton Rouge and Donaldsonville.

At New Orleans the comparative stages are the same.

Four days after the beginning of the regular wave at Red river landing in 1912, or on May 1, the disastrous crevasse at Torras occurred. This break in the levee, just west of the mouth of the Red river, widened to 4,000 feet and the immense volume of water, which poured through the gap spread over the lands from there south to the gulf, not a drop of it re-entering the Mississippi.

Today's stages at Vicksburg south, compared with the maximum stages of 1912, are:

Name.	Today's 24-Hour Stage	Change.	Record.
Vicksburg.....	52.1	0.1 fall	51.5
Natchez.....	50.8	0.0 unc'd	51.4
Baton Rouge.....	40.6	0.1 rise	44.8
Donaldsonville ..	32.1	0.1 rise	34.8
New Orleans....	20.0	0.1 rise	22.0

OREGON SINGLE PRIMARY IS URGED IN FLORIDA

U. S. Senator N. P. Bryan Addresses Florida Legislature on Bill Reforming Election

(Special Dispatch to The Journal.)

TALLAHASSEE, Fla., May 3.—United States Senator N. P. Bryan came from Washington to address the house on his primary amendment bill, which seeks to eliminate the Republican vote in the primaries in this state and do away with the second primary.

Senator Bryan's bill is modeled after the Oregon law. He came here after conference with Senator Bourne on the matter, with the result that he claims to have a more perfect law than the Oregon act.

The members were given a demonstration of the workings of the system proposed by the commission appointed by Governor Gilchrist to recommend changes in judicial procedure. The commission was composed of Chief Justice Whitfield, W. A. Blount, of Pensacola, and Charles Cooper, of Jacksonville. The measure was intended to regulate the practice of appelant courts in reversing judgments on writs of error.

Both houses will hold a brief session Monday before leaving for Pensacola to meet Secretary Daniels, of the navy.

Mrs. Mary K. DeLeon Dead

The funeral of Mrs. Mary K. DeLeon, whose death occurred Friday afternoon, will be held at the Sacred Heart church at 2 o'clock this afternoon. Interment will be in Oakland cemetery. Mrs. DeLeon was the widow of the late Mr. D. C. DeLeon.

PRESIDENT OF HAITI DIED FRIDAY NIGHT

General Tancrev Auguste Had Been Ill Only a Short While Before Death

(By Associated Press.)

PORT AU PRINCE, Haiti, May 3.—The president of the republic of Haiti, General Tancrev Auguste, died at 9 o'clock last night, after a brief illness.

The national assembly was convoked to elect a successor as chief executive.

Four candidates were prepared to present their claims—Judge Luxembourg Cauvin, former minister of the interior; Michel Oreste, a prominent senator; General Beaufosse Laroche, minister of war, and General Beliard.

In official circles and among the general public the opinion prevailed that General Beliard would secure the nomination.

President Tancrev has occupied his office only since August 9, last year. He succeeded General Cincinnatus Leconte, who met a tragic death together with 100 officers and soldiers in a fire which destroyed the palace on August 8. It was reported that at that time he had been the victim of intrigue, but nothing was officially revealed to confirm the theory.

The great calamity in Omaha was quickly overshadowed by the terribly disastrous floods in Ohio. Great suffering and sickness from colds and exposure resulted which Foley's Honey and Tar Compound helped to alleviate. L. Poole, 2217 California St., Omaha, writes: "My daughter had a severe cough and cold but Foley's Honey and Tar Compound knocked it out in no time. My wife would not keep house without it. We have used it for years, always with good results." For sale by all dealers.—(Advt.)

HOUSE ASKED TO NAME GOOD ROADS COMMITTEE

Congressman Henry, of Texas, Introduces Resolution for New Committee in House

(By Associated Press.)

WASHINGTON, May 3.—Good roads legislation is considered of such importance, and so many highway improvement measures are pending in congress, that leading Democrats propose to create a new standing committee in the house to be known as the committee on good roads.

Provision for such a committee of twenty-one was made in a resolution introduced today by Representative Henry, of Texas, chairman of the rules committee, which will consider it soon after the passage of the tariff bill.

Should the committee be created it would take from the present committee on postoffice and post roads a part of its work. Mr. Henry declared more than fifty good roads measures already introduced, which ordinarily would go to numerous standing committees, should go to one. His suggestion had the approval of many leading Democrats.

An effort will be made to have the resolution passed at the special session.

VARDAMAN'S SERVANT WALKS TO WASHINGTON

(By Associated Press.)

WASHINGTON, May 3.—After a six weeks' "hike" from his home in Mississippe, William Gregory, a former servant of Senator Vardaman, limped, footsore and travel-stained, into the capital in search of a job. He got it. He goes to work today as a porter in the senate office building, for Senator Vardaman believed the display of grit made by Gregory in search of office deserved to be rewarded.

"I'm glad William is here," said the senator today. "for he will prove an example to the members of his race." He added that his old employe "never would take a seat in a street car while a woman was standing."

(Special Dispatch to The Journal.)

SAVANNAH, Ga., May 3.—On Sunday of next week, May 11, the Woodmen of the World of Savannah will hold their annual memorial service and will unveil a number of monuments to those who have died during the past year. The principal address will be delivered by Rev. R. L. Rosenthal, of Columbus.

DETECTIVES CONFER WITH CORONER AND SOLICITOR DORSEY

(Continued from Page 1.)

basement of which her lifeless body was found at 4 o'clock Sunday morning by Newt. Lee, the negro watchman, the detectives want to know it, for if this fact could be established what they term their "main lead" would be broken.

If Mary Phagan did not leave the factory after noon Saturday then the detectives have only to prove what transpired in the store building and they will have solved the mystery.

CASE IS STRENGTHENED.

As the result of the elimination of so many conflicting reports the officers say that their main case has been strengthened; and Saturday morning, as the men started out for a day of hard work, they had an air of renewed confidence in their ability to solve the murder mystery within a short time.

All of the rumors had to be investigated, and now that most of them have been proved without foundation, the detectives consider that the case is less complicated than it was two or three days ago.

Several of the officers have been conducting a general investigation of the factory with particular reference to the treatment of the women employed by the officials and by the men who work there. While past occurrences there would probably be inadmissable in the trial of an individual for the murder of Mary Phagan, still the knowledge of past events might give the detectives a new clue or "lead," they say.

"PIE"—REAL EATS—WORRIES SENATORS

(By Associated Press.)

WASHINGTON, May 3.—Insurgency over the question of "pie"—not political, but actual—is stirring the senate. While the senate restaurant was "reorganized" along Democratic economy lines and the prices of many of the viands materially reduced, the price of pie was cut remains at 10 cents.

"It's the most important article of food we have," declared a New England senator, "and one that inspires good legislation. It's an outrage! The price must come down!"

The management of the restaurant recently was changed. The feeding problem in the senate for years has been bothersome, but never before has disruption been threatened over the problem of pie prices.

THREE OFFICERS GIVEN CONTROL OF MINE DISTRICT

(By Associated Press.)

CHARLESTON, W. Va., May 3.—In furtherance of his plan to maintain order in the strike regions of Cabin Creek, Governor Hatfield has appointed Major James I. Pratt, John Moore, a labor leader and Deputy Sheriff Z. H. Trowbridge to have absolute control of the policing of the district and the only persons, authorized to make arrests.

POPE IS AGAIN AT HIS DUTIES IN THE VATICAN

Pontiff Names Dr. Andrea Amici as His Private Physician for Aiding Recovery

ROME, May 3.—The health of the pope continues to improve. Every day he descends to his library and devotes several hours to his work. It was learned that one of his first acts after he became convalescent was to appoint Dr. Andrea Amici his own private physician. Although Dr. Amici is not the official vatican physician, he shared with Prof. Ettore Marchiafava the responsibility of caring for the pontiff during his recent illness.

PULSE OF MURDERERS IS STRIKINGLY SUBNORMAL

(By Associated Press.)

CHICAGO, May 3.—Cold-bloodedness is a physical characteristic of the habitual criminal, according to statistics published today in the journal of the American Medical association. The temperature of murderers is found to be strikingly subnormal. Abnormally rapid pulse and respiration are found to be characteristic of the confirmed criminal.

The figures were obtained from examination of more than 1,500 convicts in the Wisconsin state penitentiary. Comparisons were made with statstics of 200,000 average Americans, examined for life insurance.

General physical degeneracy is found to stigmatize the criminal. The average convict is three inches below the normal in stature, light in weight and with small chest expansion.

POLICE CHAIRMAN'S STORE LOOTED BY ROBBERS

(Special Dispatch to The Journal.)

COLUMBUS, Ga., May 3.—One of the boldest robberies of the season occurred last night when the clothing establishment of C. W. Mizell, chairman of the police committee of the city council, located in the heart of Columbus and within a very short distance of police headquarters, was broken into from the rear and all the money in the cash drawer, amounting to about $25, was taken, together with a lot of jewelry, such as collar and cuff buttons and a lot of small articles of underwear, etc.

WOMAN BURGLAR IS ROUTED BY A GIRL

(By Associated Press.)

PASADENA, Cal., May 3.—A woman burglar, faultlessly attired and employing an automobile in her work, was driven from the home of Mrs. P. B. Geary by Helen Geary, 17 years old, after a desperate encounter last night.

The visitor was ready to depart with loot valued at several hundred dollars, when she was detected by the young woman. A fist fight ensued, the Geary girl being knocked down. The thief then jumped into her automobile and sped away, leaving the plunder.

ASHEVILLE CARMEN SETTLE DIFFERENCES

(By Associated Press.)

ASHEVILLE, N. C., May 3.—The strike of the motormen and conductors on the local lines of the Asheville Power and Light company, which was declared last Saturday at noon, ended at 9:15 Friday night, when the company announced its willingness to make certain advances in the wages of the men. The new rate ranges from 20 cents an hour for the first year to 25 cents an hour for the fourth year and every year thereafter.

The strikers will return to work under the new scale of wages.

await the return of Secretary Bryan.

Then it will be in order to take the matter up diplomatically, probably the first step being to ascertain whether the administration can be counted on to begin a legal test of the constitutionality of the new act.

If the question between the United States and Japan should not be settled within the next three months, it was intimated here today that Japan might make a formal request for submission of the issue to arbitration at The Hague tribunal.

The special arbitration treaty between the two countries negotiated in 1908, which is believed to cover the case, will expire by a limiting clause unless renewed on August 24.

The particular provision of the treaty is:

"Differences which arise of a legal nature or relating to the interpretation of treaties existing between the two contracting parties and which it may not have been possible to settle by diplomacy, shall be referred to the permanent court of arbitration established at The Hague by the convention of July 29, 1899, provided, nevertheless, that they do not affect the vital interest, the independence or the honor of the two contracting parties, or do not concern the interest of third parties."

Diplomatists here do not believe the question of Japan's honor as it has been referred to in connection with the California situation, would be held to be of such a nature as to come under the exemption as referred to in the treaty.

Secretary Bryan telegraphed President Wilson he would leave Sacramento tonight and arrive here next Thursday. Until that time the president, it is said, will make no move.

Officials here hope no bill will be signed by Governor Johnson until President Wilson has an opportunity to confer with Secretary Bryan as well as the Japanese ambassador.

Mr. Bryan will bring to the president a detailed report and immediately after his return it is not improbable that Governor Johnson will be communicated with.

REV. HENRY NEWTON IS DEAD AT ATHENS

(Special Dispatch to The Journal.)

WILSON BRINGS M'ADOO AND M'COMBS TOGETHER

President Met Them in New York With Colonel House, Returns to White House

(By Associated Press.)

WASHINGTON, May 3.—President Wilson returned to the White House at 8 o'clock today, after a two days' speaking trip to New Jersey. He expressed himself as pleased with his reception in his home state and confident that the reforms he advocated ultimately would be accomplished.

One of the incidents of the trip which afforded the president much satisfaction and which did not become known until today was his meeting in New York with National Chairman William F. McCombs and Secretary McAdoo, of the treasury department, at the home of Colonel E. M. House.

It was the first time that Chairman McCombs and Secretary McAdoo, who was vice chairman, had met since the early days of the campaign. Differences of opinion as to the management of the campaign was said to have existed between the two men, though their relations with Mr. Wilson were always of a warm cordiality.

In view of the widespread significance, politically, that has been attached to the situation, the president was glad to meet his two friends for a social chat, especially since Mr. McCombs was scheduled to sail for Europe today for several months' rest.

The departure of Mr. McCombs for Europe revived talk here of circumstances under which he declined the president's offer to be ambassador to France.

There was an intimation that while Mr. McCombs was going abroad for a rest, he might be offered the same post later and would accept.

So far as known the president has not determined upon any one else for this post.

The president had no engagements and planned a holiday. He started out walking early and did not expect to be in his office except for a brief period.

NEW YORK, May 3.—Chairman McCombs, who sailed for Europe to escape insistent office seekers, announced he would continue law practice upon his return.

GOOD ORDER ALONG BORDER, SAYS WOOD

(By Associated Press.)

WASHINGTON, May 3.—Major General Wood, chief of staff of the army, who returned today from a tour along the Mexican frontier, told Secretary Garrison good order prevailed along the border. He heard no report of serious marauding expeditions into the United States and said the sympathy of border folk he found overwhelmingly with the Carranza movement and opposed to the Huerta regime.

SLEEP DISTURBING BLADDER WEAKNESS BACKACHE-RHEUMATISM, QUICKLY VANISH

Even Most Chronic Sufferers Find Relief After a Few Doses Are Taken

Backache, urinary disorders and rheumatism, are caused from weak, inactive kidneys, which fail to filter out the impurities and keep the blood pure, and the only way on earth to permanently and positively cure such troubles is to remove the cause.

The new discovery, Croxone, soon relieves such conditions because it reaches the very roots of the disease. It soaks right into the stopped up, inactive kidneys, through the walls and linings; cleans out the little filtering cells and glands; neutralizes and dissolves the poisonous uric acid substances that lodge in the joints and muscles to cause rheumatism; heals the inflamed membranes of the bladder, and cleans out and strengthens the stopped up, lifeless kidneys so they filter and sift all the poisons from the blood, and drive it out of the system.

So sure, so positive, so quick and lasting, are the results obtained from the use of Croxone, that three doses a day for a few days are often all that is required to cure the worst backache, regulate the most annoying bladder disorders, and overcome the numerous other similar conditions.

It is the most wonderful preparation ever made for the purpose. It is so prepared that it is practically impossible to take it into the human system without results.

An original package of Croxone costs but a trifle, and all druggists are authorized to return the purchase price if Croxone fails to give desired results, regardless of how old you are, how long you have suffered, or what else has failed to cure you.—(Advt.)
